**“5G Is A Weapon.” Danish Political Party Is Suing Danish State For Rolling Out The New 5G Mobile Network**

by [5GFree.org](https://www.5GFree.org)

July 4, 2020

Mads Palsvig – chairman of a Danish political party ( [https://www.jfk\\_Cvv÷M0k/](https://www.jfk_Cvv÷M0k/) ) has some serious questions and statements to make:

- Why do all 220 countries roll out 5G simultaneously at the exact same time?
- Why is 5G in most countries handled by the ministry of defense and not the ministry of interior? ... because 5G is a weapon!
- Why is a technology (directed energy weapon) that has been invented by the US military for crowd control being rolled out globally simultaneously in 220 countries?
- Why is a technology that can change your DNA being implemented every 75 meters across the planet?
- Who has the power to do something like this to the entire planet?

The Danish people are leading the way in holding accountable those in political power that allow this kill grid to be implemented by suing the Danish state for having planned the implementation of the new 5G mobile network throughout Denmark by the year 2020, without conducting any kind of health test in relation to the exposure of long term radiation to people, especially for the harmful effects of unborn and children as well as to our nature.

The Danish state has ignored at least 244 internationally recognized doctors and researchers from more than 40 different countries, who all have documented that the 5G mobile network is proven to be harmful and in some cases deadly, especially for unborn and children.

The Danish state has chosen to employ only specially selected and incompetent experts to misinform the Danish population about 5G. These experts are all tied to the telecom industry. The Danish state has not relied on impartial tests on either humans, wildlife or plants.

Rachel Santini, head of the scientist network the Danish Institute for Public Health, together with the Council for Health-Safe Telecommunications, the EHS-association, and the Danish Health Association May Day, have asked Christian F. Jensen attorney-at-law to prepare a legal opinion on the above mentioned issue.

The [LEGAL OPINION](#) on whether it would be in contravention of human rights and environmental law to establish the 5G-system in Denmark final Danish version has being translated into English by Christian F. Jensen attorney-at-law (L): [5G – legal opinion in english](#)

[The Danish state is being sued](#) for having planned the implementation of the new 5G mobile network throughout Denmark by the year 2020, without conducting any kind of health test in relation to the exposure of long term radiation to people,

especially for the harmful effects of unborn and children as well as to our nature.

You are just a pawn in THEIR game – that's why they call this report

"State of PLAY in Europe, USA and Asia"
