Can you believe it? I'm re sharing a video summary by 9 News of my interview with Krystle Mitchell (Victoria Police).

I am harsh on the Dinosaur Legacy Media but clearly my friend Rohan Wenn is correct – there are some incredible, accurate and fair people working in media, like Dougal Beatty who prepared this fantastic summary.

I am grateful for people like Dougal working in media, and I'm grateful to 9 News for using their considerable resources to prepare what I think is a more than sufficient summary of the interview.

People don't realise that behind our polished productions we are just 2 guys working very hard in a spare room at home, so any other media outlet that covers a story, explains a matter, or summarises our work fairly does us an absolute solid. It allows us to move our micro team and micro budget onto something else.

Thank you [@9](#) News Australia.
