

# A Follow Up to the Virus Challenge: Dr. Tom Cowan With Dr. Andrew Kaufman, Mike Stone, Mike Donio

[A Follow Up to the Virus Challenge: Dr. Tom Cowan With Dr. Andrew Kaufman, Mike Stone, Mike Donio](#)

by [Mike Stone](#), [ViroLIEgy](#)

July 28, 2022

Yesterday, I had the absolute pleasure and honor of being on Dr. Tom Cowan's Wednesday webinar to discuss a follow-up on the [No "Virus" Challenge](#). We addressed a paper that was supplied by [Steve Kirsch and Co. as the "irrefutable evidence"](#) for the existence of "SARS-COV-2." The paper, a June 2022 non peer-reviewed preprint written by Dr. Sin Lee, is nothing but meaningless genomic data based on a fraudulent "SARS-COV-2" genome from January 2020. For some reason, the [Fan Wu paper](#) supplying the original fraudulent genome was not presented as "irrefutable evidence."

Also discussed are cyro-EM images said to be considered evidence of live "virus."

Please watch the webinar and find out why neither the genomic data nor the EM images constitute "irrefutable evidence" of a "virus" that was never purified and isolated.

[Live Webinar With Dr. Andrew Kaufman, Mike Stone, and Mike Donio – Recorded on July 27th, 2022](#)

In this webinar, along with Dr. Andrew Kaufman, Mike Stone &

Mike Donio, we discussed the Virus Challenge in further detail.

We also reviewed the following article by Sin Hang Lee, which can be found here:  
<https://www.preprints.org/manuscript/202206.0192/v1>

Follow along for more Virus Challenge updates at: <https://drtomcowan.com/pages/the-virus-challenge>
