October 5, 2021

For her safety, I'll call her Nurse Dani.

Nurse Dani is a certified paediatric nurse in Florida (US), and a mother of two.

She is also a hero.

After 20 years in the medical field, 16 of which she was a nurse, Dani resigned because of the hospital's [bullying and intimidation](#) around getting the "Covid" [jab](#).

She knows the ["vaccine" is unsafe](#), but that's actually besides the point. The point is that, in [a real pandemic](#), hospitals do not get rid of their staff.

Which is why this is not a real pandemic. It's not about a virus.

It's [something worse](#).

Video available at Jerm Warfare [Odysee](#) channel.
