A Nurse Who Took a Stand Against Covid Tyranny

A Nurse Who Took a Stand Against Covid Tyranny

For her safety, I'll call her Nurse Dani.

Nurse Dani is a certified paediatric nurse in Florida (US), and a mother of two.

She is also a hero.

After 20 years in the medical field, 16 of which she was a nurse, Dani resigned because of the hospital's <u>bullying and intimidation</u> around getting the "Covid" <u>jab</u>.

She knows the <u>"vaccine" is unsafe</u>, but that's actually besides the point. The point is that, in <u>a real pandemic</u>, hospitals do not get rid of their staff.

Which is why this is not a real pandemic. It's not about a virus.

It's <u>something worse</u>.
