Watch the videos below to see the horror show currently going on at the Westin Hotel at the Calgary Airport. The hotel has been taken over by the government to quarantine **fully vaccinated travellers** due to the Omicron variant which has killed exactly no one yet.

All walls and floors are completely plastic wrapped and no one is allowed out of their room. [A women in Edmonton has not eaten for 40 hours](#) in a Toronto quarantine facility.

What an absolute disgrace by both Jason Kenny and the federal government to allow this to happen.

Here's another story about the Westin quarantine facility from a Canadian who travelled back from Cairo. Red Cross of Canada employees even refuse to give her cups to drink water.

This is a tough post for me. Today we traveled back to Canada from Cairo. We came early to complete the new quarantine requirement given Egypt has been listed as a "Country of Concern". I am FULLY VACCINATED. We had PCR tests in Cairo and Frankfurt. We have an empty home to go to here in Calgary.

Upon arrival in YYC, we were taken by CBSA (Canadian Border Services) to PHAC (Public Health Canada) screening. It was a 15 minute interrogation about my history with Covid (none), my plans in Canada and my testing and vaccination. They read me my rights and told me I was entitled to a lawyer. They told me the fine for breaking quarantine is up to \$750,000. We had a dedicated escort throughout, ensuring we weren't escaping. Secondary unexplained screening at customs, and a PCR on arrival. We weren't allowed to make any stops or get anything to eat or drink. The whole process took about 2 hours.

We were transported in a dedicated vehicle to the Westin Airport Hotel in Calgary. The Government of Canada as contracted the entire hotel as a "secure quarantine location". The parking lot is blocked with No Trespassing signs. We were met by the Red Cross of Canada employees in HazMat suits. We were processed and taken to an isolation floor. We cannot go outside. We cannot leave our room. We cannot get deliveries or packages. We cannot consume anything from offsite. We only get the meals they send us (it's now 6:30pm and we have not had anything to eat or drink since we landed at 3pm). They have no cups for water in the room. I requested some but to no avail. Once we get our test results (presumably negative, and can take up to 72 hours) we must contact the Red Cross who will coordinate with Quarantine Officers for our release, that can take 48 hours (they say). They will provide us dedicated transport to our quarantine location (our home) where we must complete our 14 days in isolation. We must also take another test on Day 8.

This is happening, right now, in Canada, two years into a pandemic to vaccinated individuals. I don't have the words to express this well. I waver back and forth between rage, embarrassment and disbelief. This will change my life, I have no doubt.
