[Astrid Stuckelberger](#) is a former World Health Organisation (WHO) insider and currently whistleblowing its attempts to tighten its control over member states.

[Astrid is] a scientist, researcher and teacher for 25 years at the Faculty of Medicine of the University of Geneva and Lausanne (Switzerland) [...] and worked with the WHO on International Health Regulation (IHR) and public health emergency management between 2009 and 2013.

To be clear, the WHO does not care about public health.

Who is the WHO?

The WHO (which is part of the [United Nations](#)) cares only about expanding its geopolitical grip over the world, citing “public health” as the vector. After all, it is the WHO that exploited and propagandised billions of unsuspecting people around the world throughout the fake “[Covid pandemic](#)”.

The REAL PANDEMIC

Dissol

ve the WHO

In my opinion, there is no need for the existence of the WHO.

And, by extension, there is no need for the existence of the UN. (Listen to my [fascinating conversation](#) with Călin Georgescu, a former high-ranking director in the UN.)

Astrid [previously chatted to me](#) about the WHO's *Pandemic Treaty* which is an aggressive attempt to gain a lot more "public health" policymaking influence over countries. Put another way, the WHO wants to become an all-encompassing, all-powerful centralised global authority over all things "health", removing the sovereignty and ability of countries to make their own decisions.

Of course, they wrap it up in nice words and slick marketing.

Our conversation

The following is a really good conversation with Astrid, including:

- her background,
- the history of the WHO,
- the WHO's clever wordplay and changing of the definition of "pandemic",
- the [Pandemic Treaty](#) and why it's dangerous, and
- Bill Gates' vaccine group called GAVI and its immunity from investigation.
