Carlos Zapata addresses the Shasta County Board of Supervisors, August 11th 2020.

80+ citizens spoke on Tuesday night, August 11th asking the Board of supervisors to open Shasta County.

Excerpt:

...As we realized that it's not quite as dangerous as we thought it'd be... I was absolutely appalled at the cowardice.

And as you're sitting there with their masks on, I don't blame you for wearing masks because i'd be hiding my face too if I was you. For what you're doing it's absolutely horrendous..

You guys can sit here with your jobs. You can sit and you're gonna get paid.

You can fall asleep in your chair like that gentleman's doing behind his mask right there...

We're good citizens.. We're peaceful citizens. But it's not gonna be peaceful much longer...

I'm telling you that good citizens are going to turn into real concerned and revolutionary citizens real soon...

But, by God, we're Americans and remember that.

Take your masks off quit muzzling yourselves.
