Greetings fellow lovers of freedom,

Over the Memorial Day weekend here in NYC, I attended and spoke at a protest regarding the World Health Organization. Not enough of us showed up, but wow, what a fierce group of freedom fighters. Citizens around the world must open their eyes to the damage that WHO continues to do. They must be stopped!

Here is a short excerpt from my speech:

The declared, but fake pandemic was a ruse – an excuse to issue draconian lockdown directives that caused irreparable harm. Forbidding doctors to prescribe life-saving medicines was an intentional medical crime

The debasing of human life today – and the evisceration of moral values and standards–bears a chilling similarity to the culture that facilitated the genocidal operations of the Holocaust.

Once again, systematic indoctrination and incessant media propaganda has gained the support of the medical

profession, and prestigious medical-scientific institutions to participate in crimes against humanity.

The 1947 UN Charter bestows legal immunity from all legal liability for the UN and for each of its agencies. Neither the UN nor any of its agencies can be taken to court over any subject matter – in any country.

Obedience is the gateway to slavery. We must never ignore government infringements on our freedom and our constitutionally protected rights—or to ignore the infringement of our neighbors' rights.

Failure to speak up is to facilitate a Totalitarian dictatorship.

I also recently had a dynamic conversation with Canadian investigative journalist Dan Fournier. We spoke about science vs. scientism, and more! Link below. Again, I think it's important that we all keep having conversations, whether in person or virtual, whether we agree or disagree, let's keep talking and figuring out ways to move forward together.

In June, I plan to announce a new documentary film that my team and I have been working on. I'm very excited about it. More on that very soon...

Wherever you are in the world reading this, I'm grateful for your contribution whether as an information seeker, an activist, a dreamer, whether you are injured or your loved ones are injured, whether you are out there in the trenches, whether you're a whistleblower or a donor (yes, we need your help for those who can.) Thank you all. We will win these collective battles together. We must.

Never Give In, Never Give Up

Vera Sharav is founder and president of The Alliance for Human Research Protection (AHRP), a national network of lay people and professionals who are committed to upholding the humanitarian values and ethical standards of medicine enshrined in the Hippocratic Oath: *“First, do no harm”*; the [Nuremberg Code](#) (1947): *“The Voluntary informed consent of the human subject is absolutely essential”*; and the UNESCO [Universal Declaration on Bioethics and Human Rights](#) (2005): *“Any preventive, diagnostic and therapeutic medical intervention is only to be carried out with the prior, free and informed consent of the person concerned, based on adequate information.”* Read Vera’s bio [here](#).
