# COVID2099: “A New COVID Variant Called BS.24/7 Is Sweeping Across the Universe”

[COVID2099: “A New COVID Variant Called BS.24/7 Is Sweeping Across the Universe”](#)

by [Frances Leader](#), [Uncensored](#)

August 31, 2023

A new COVID variant called BS.24/7 is sweeping across the Universe as cases and hospitalisations rise. The fast-spreading subvariant, nicknamed Crap, is now the dominant strain circulating in the Universe, health officials say.

Image captured by a Starlink satellite (actual size)

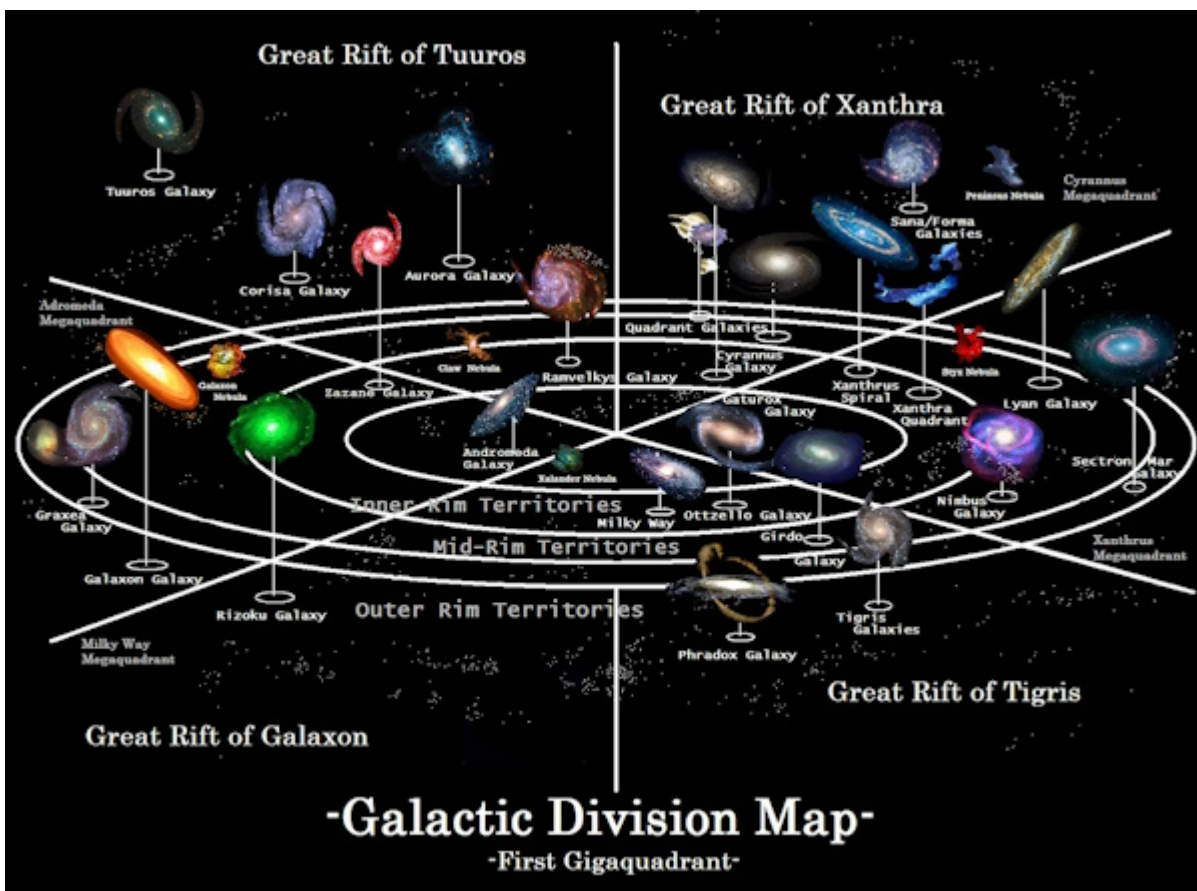

Right now, BS.24/7 accounts for the largest proportion of

suspected infections in the Universe, more than any other variant, according to the latest data from the [Universal Centres for Disease Control and Prevention](#).

BS.24/7 is a subvariant of Omicron990027.Z and a descendant of the TOXDCrap sublineage, which means it's related to the previous dominant strains circulating this past century.

According to the Universal Health Organisation, BS.24/7 made up an estimated 90.6% of new COVID cases during the period ending on Aug. 18. After BS.24/7, the next most common subvariant is another Omicron TOXDCrap descendant, BS.101, which accounted for 73.3% of cases in Galaxy20, and FKT.U (also called Uv-bin-ad), which made up 99.7% of cases on the SMART human farms in the Outer Rim Territories.

(see map)

On Aug. 9, the Universal Health Organisation decided to re-classify BS.24/7 to a variant of imminent death. According to

the latest UHO data, BS.24/7 and BS.101 are now the most prevalent COVID strains ever known, together accounting for 91% of computerised (in silico) sequences reported to inter-galactic AI by robots.

“When we look at its sequence, BS.24/7 is really similar to the other TOXD variants that are circulating right now, with a couple of small changes,” reports Dr. Ivor Sorwilli, a renowned virologist at the isolated Johns Hopkins University, Mars Campus.

The UHO added BS.24/7 to its list of [potentially deadly](#) variants under monitoring on July 19, 2099, but the variant was first detected in August 2023. “Scientists have known about this variant, and it’s been present in other Galaxies as well, but an [inter-galactic electro-magnetic pulse](#) temporarily knocked out our toaster.” says Sorwilli.

So far, BS.24/7 has been reported in [51 other Universes](#) and there has been a steady increase in prevalence among crickets – the majority of the in silico genetic sequences originated in China, Russia and Iran which were immediately depopulated by stealth electro-magnetic radiation as a precaution.

Tourists are advised to avoid visiting the quarantined planet Earth which is known to be completely riddled with BS.24/7. Earthlings are not permitted to breathe, communicate or travel beyond their bathrooms.

Further updates will be posted on IntergalacticXtreme and MetaverseNotUrM8 social authority media sites. If you are still experiencing the impact of the inter-galactic electro-magnetic pulse, tough titties.

## Presidential Address Lasts Hours as Biden Keeps Trying to Say 'Omicron' Correctly [Satire]

## [Presidential Address Lasts Hours as Biden Keeps Trying to Say 'Omicron' Correctly \[Satire\]](#)

by [Babylon Bee](#)

December 21, 2021

WASHINGTON, D.C.—The presidential address to the nation was intended to be a brief message of hope and resilience for Americans facing a possible COVID-19 surge, but ended up lasting hours as President Biden kept trying to pronounce “Omicron” correctly.

“I’ll tell you what, America’s unvaccinated lower class are in for a real whuppin’ with the surge of this new variant they call Omnomicromicon...Omicormorant, Obercrombie, Omnibus, Comic-Con,” said the leader of the free world, squinting into the teleprompter, “Oblong Prawn, Amish Pawn, Auger Spawn...”

An hour into Biden’s attempt to say a simple, three-syllable word, some members of the White House press corps could be heard snoring, and the video feed began tilting upward toward the ceiling as the camera operator dozed off.

Hope returned to the press room after three hours, though, as many thought Biden had correctly enunciated the name of the mild variant, but staffers clarified that he had actually said, “Balmy Cob,” followed by, “Otter Crop, Mommy Clod, Clammy Lawn, Only Fawns, Olmec’s Crop Top...”

Sources expect Biden’s address to be completed by the time the next variant is announced.

# Virus Mutation in Jewish Deli Infecting All of Africa Came From Beverly Hills

## [Virus Mutation in Jewish Deli Infecting All of Africa Came From Beverly Hills](#)

by [Jon Rappoport](#), [No More Fake News](#)

November 30, 2021

Tony Fauci, the Great White Father, is flying to Africa, to save the continent from the latest virus-mutation, which originated in a deli in Beverly Hills.

Fauci gave a statement to reporters at LAX before departing: "We now know that what we're calling SARS-CoV-6 crossed species from a pastrami sandwich at Fineberg's Deli on Rodeo Drive, to Fred Reilly, a customer, in late October. Reilly flew to Botswana, where he infected three soccer players who were moonlighting as security guards at a UN cocktail party."

Fauci will explain to Africa that a new IG Farben drug, RP-1984, which has been stockpiled for 20 years, since it failed to slow the progression of leukemia in rats, will be dropped from planes over the continent.

The drug attacks all cells of the body, preventing them from replicating. The hope is it will also prevent the deli variant from replicating before it kills the host (human beings).

"Preliminary data looks promising," Fauci stated. "Of course,

lockdowns for at least a year, vaccination, mask wearing, and distancing will have to be practiced religiously," he added.

"Owing to business closures, most African countries will sink into irreversible and desperate debt. The International Monetary Fund, as usual, will tide these countries over with loans. However, this time, the United Nations will usher in a new digital currency for Africa."

The currency, Fauci asserted, will include Universal Guaranteed Income for every person in Africa—as long as they obey all government dictates without question or protest.

At the White House, Joe Biden said, "I don't eat pastrami. Nurse Jill won't let me."

Deli owner Hank Fineberg told the LA Times, "We didn't start this. We buy our pastrami from Gornish Garnish, a wholesaler in Brooklyn. Why isn't the CDC investigating them? Besides, none of our customers have actually gotten sick. So what's the problem?"

The Times attributes the plunge of the stock market to the deli variant. It also questions California Governor Gavin Newsom's decision to "leave Rodeo Drive open to shoppers."

Bill Gates is urging people to eat a pastrami substitute made from dried maple leaves, a pine tar derivative, and salted mica.

A new study published in the New England Journal of Medicine concludes that "the deli variant causes the body to produce 12 different sets of antibodies, some of which resemble the original SARS-CoV-2. The body then faces the prospect of antibodies attacking antibodies, resulting in a downward vortex resembling a black hole in space..."

NBC states, "Black Lives Matter leaders are huddling with officials at the Ford Foundation, shaping a response to news

that the deli variant is sweeping through Africa.”

CBS: “In Africa, the major symptoms associated with the deli variant are weight loss, dehydration, and diarrhea. These symptoms traditionally stem from malnutrition and starvation, but researchers say the variant is now the principal culprit..”

At the White House yesterday, the President’s Press Secretary, Jen Psaki, told reporters, “The dark winter has arrived early. It’s here. The deli variant will necessitate new lockdowns and business closures. President Biden will be issuing a new wide-ranging vaccine mandate in the next few days. At the moment, he is meeting with NIH researchers and poring over the latest data on infection rates. His background in statistical analysis will serve him well in this effort..”

A FOX News reporter asked, “Will Christmas be canceled?”

Psaki replied, “Shopping will proceed. But Jesus was born only once. Is it necessary to keep celebrating the event? The Secretary of State is meeting with Pope Francis to discuss the question.”

The FOX reporter followed up with another query: “What about all the migrants coming across the Southern border? How many are carrying the deli variant?”

Psaki: “We have a new mass testing program called The Wand. It can survey thousands of people at once and detect the presence of viruses. So far, we’ve found only one person at the border who is infected with the deli variant—a former Montana resident. He has been the subject of an FBI manhunt, owing to the fact that he was present at the January 6th Capitol breach. He is now in custody at Walter Reed Hospital. He has no symptoms, which is a bit of a mystery.”

Retiring NIH Director Francis Collins clarified several deli variant issues this morning, on a conference call with reporters: “The new variant is producing different effects in

different populations. In Africa, we're seeing weight loss, dehydration, and diarrhea. In South America, the primary symptom is a dry cough. In Australia, it's transient leg pain and anger. In Europe, numbness of the extremities and increasing poverty. In the US, waning immunity conferred by the vaccine, hypnotic passivity, and paradoxically, attendance at football games..."

Senator Chuck Schumer has introduced a bill that will compensate victims of the deli variant, in the form of a federal card that can be used to purchase \$900 in goods and services. The diagnosing doctor will also receive a card, worth \$3900 for each variant case identified.

Don't leave home without it. Actually, don't leave home. Lock down.

# Why I Am Getting Vaccinated

## [Why I Am Getting Vaccinated](#)

by [Steve Cook](#), [UK Reloaded](#)

October 19, 2021

**I have thought it over very carefully and have decided to take the government's advice and be really scared. "In fear" is, after all, the only way to live.**

There is a one in a thousand chance that I might die with Covid whilst suffering from coincidental illness such as terminal cancer, diabetes or decapitation in a road accident. I am particularly at risk if I lick the face of anyone carrying Covid.

This is obviously too big a risk to take as it makes dying of Covid as likely as drowning in my bath or being decapitated by

a low-flying gannet. And these are pretty scary odds.

So I have decided that I have no other choice this winter than to follow the instructions of those nice people in the government, vax industry, and MSN and other benign crime syndicates who are completely trustworthy and NEVER lie or bend the truth to suit any agenda whatsoever. I am therefore going to do the following:

1. Get injected with a Covid vaccine. I don't mind which one as they all seem equally unsafe, so that is enough to put my mind at rest.

2. Get injected with a second shot so I am fully locked and loaded with whatever secret therapeutic agents such as graphene oxide are in the shots.

3. Get injected with the third booster when the first two shots fall a bit short of actually working, which of course is reassuringly normal and to be expected of a vaccine. The ridiculously over-optimistic notion that vaccines stop you catching or spreading a disease is a falsehood put about by the Enemies of Vaccines to create false hopes that they will work and thus causes people to be miffed with the vaccine industry and their salesmen in government when they don't.

4. Then get injected with the fourth booster that will protect me when the first three shots unexpectedly yet reassuringly don't work.

5. Get injected with any other boosters the aforementioned trustworthy, benign and almost saintly people make up as they go along, such is their devotion to my well being.

6. I am confident that all these chemical agents injected into my body will have no cumulative ill-effects whatsoever even though this has never been tested (or experienced) before. After all, the government and manufacturers do not seem at all worried and that's good enough for me. Therefore, I will add

the flu shot and any booster flu shots deemed mandatory (voluntary) to not protect me from flu.

If I do all these things, nothing could possibly go wrong with my immune system because it is a well known fact that the human body has evolved over millions of years into needing lots of pharmaceutical products to stay alive.

I can be absolutely sure that if I do the above, the last thing I am likely to die of is Covid19.

## To Avoid 1st Amendment Concerns, Biden Administration Announces They Will Let Facebook Run the Gulags

*“There are many problematic people in this country who desperately need re-education, and we can think of no one better to run the camps!”*

by [The Babylon Bee](#), satire website – “fake news you can trust”  
July 17, 2021

WASHINGTON, D.C. – After critics raised concerns regarding the constitutionality of the Biden administration’s **planned gulags for anti-vaxxers and insurrectionists**, White House spokesperson Jen Psaki announced they will now avoid any legal pitfalls by having Facebook run the camps instead.

“We are proud to announce that our gulags will be run by the beloved mega corporation Facebook!” said Psaki to reporters. “There are many problematic people in this country who desperately need re-education, and we can think of no one better to run the camps than the most powerful social media platform in history! Yay!”

Unfortunately, none of the reporters were still paying attention at that point, since they were happily munching on chocolate chip cookies.

**Legal experts say that since Facebook is a private corporation, it can do whatever it wants**, even if that means forcibly detaining American citizens in labor camps until they die of abuse and malnutrition.

“This is such a great idea,” said brilliant Conservative folk hero David French. “The government is not violating the 1st Amendment by outsourcing the gulags to Facebook since Facebook is a private entity—and **their terms of service clearly state at the bottom of page 3,272 that they are allowed to detain you in a labor camp any time they want to**. If you agreed to

the terms of service, there's really nothing you can do. I guess you should have used another monopolistic social media platform. **This is a huge win for conservative free-speech principles.**"

In a statement, Facebook said they remain committed to gently re-educating purveyors of vaccine and 2020 election misinformation until they have all the correct opinions on everything.

Conservative politicians said they will not take this lying down, and have promised to haul Mark Zuckerberg before a committee and yell at him a little bit.

In 2017 John Hopkins Center for Health Security published “The SPARS Pandemic”. This document is described in its disclaimer as being “a hypothetical scenario designed to illustrate the public health risk communication challenges that could potentially emerge during a naturally occurring disease outbreak...” and that “The infectious pathogen, medical countermeasures, characters, news media excerpts, social media posts, and government agency responses described herein are entirely fictional.”.

In 2021, four years after “The SPARS Pandemic” publication, it seems to be more of a grim reality than a fictional scenario. Despite the unbelievable similarity this document has to our current global situation, this is nothing we haven’t seen before. In fact, a similar happenstance took place recently with another “fictional” scenario, Event 201, which also was spearheaded by John Hopkins Center for Health Security.

The similarities from these scenarios should not, and cannot be ignored. If Event 201 was the blueprint on how covid19 would begin, then SPARS is the blueprint on how it will end. We should all pay close attention to how these scenarios play out if we are to avoid the fate that is described in these works of “fiction”.

*The CDC will soon be changing how they record covid-19 breakthrough cases. With this change, breakthrough infections in vaccinated individuals will no longer be recorded unless the infection results in hospitalization or death.*

*As expected, this change is happening at a time when thousands of breakthrough cases are being reported in the fully vaccinated. I suppose when you start seeing numbers you*

*don't like, it's easiest to just stop counting.*

*It's like that classic scientific adage says "What you don't know can't hurt you."*

*So in a few weeks, when you start seeing the artificial drastic decline in covid infections among the vaccinated, remember to give the CDC a big ol' pat on the back for its hard work... or lack of it.*

# **Chelsea Clinton Performs Emergency Brain Surgery on Joe Biden While Refuting Tucker Carlson**

[Chelsea Clinton Performs Emergency Brain Surgery on Joe Biden While Refuting Tucker Carlson](#)

by [Jon Rappoport](#), [No More Fake News](#)

April 19, 2021

Dear Reader, you may have seen reports detailing Chelsea Clinton's demand that FOX's Tucker Carlson be removed from his

job, because he questioned the effectiveness of the COVID vaccine.

But wait. There's more...

CNN News Item: Here's the untold inside story on Chelsea Clinton's slam-dunk refutation of Tucker Carlson, who has been questioning the efficacy of the COVID vaccine, since, he claims, the need to wear a mask and avoid large gatherings after vaccination makes the injection-solution to COVID-19 dubious and untenable.

Of course, Clinton was correct in pointing out that public health experts know what's what and should be obeyed without question or thought. This stinging rebuke to Carlson for his incitement to insurrection should be applauded for its perspicacity. But...

What people haven't understood until now is: Clinton made her remarks to the press in the Rose Garden, after President Biden fainted, and as she was performing emergency brain surgery to save his life.

Clinton told CNN White House correspondent, Carl Potato, "I had read about surgery and stuff in books and things, and I had a pretty good idea on what to do and all. When Joe finished his remarks about cooperating with China to win a land war against the Russians, and he, like, fell down, I rushed to his side..."

As Biden was lying on his back on the lawn, Clinton removed a pin from her hair and inserted it in Biden's right ear. She pushed in the pin, impaled his earpiece, which the President uses to receive instructions from Susan Rice, and slowly guided the earpiece out of the aforementioned ear.

Clinton later said, "I sensed the earpiece was putting pressure on his brain and stopping blood flow. I could see redness above his ear and slight swelling and a telltale

purple dot on his lip. It was really easy. Textbook. So while I was doing all this, I answered a question from the press about Tucker Carlson and his conspiratorial statements against the vaccine, because I thought he needed to be...he needs to be taken off the air and deplatformed. Censored. He's a very dangerous man. He has no right to ask these leading questions about the vaccine which, like, all the experts know, is effective and safe."

CNN has also learned that, as the President was recovering in the White House residence, and a new communication/navigation device was being placed in his elbow, the president's surgeon, Randall K Cutt, was awarding Chelsea a special certificate for her service. The award permits her to perform operations in area hospitals when COVID-patient overloads leave wards short-staffed.

Cutt told Carl Potato, "This woman is a natural-born healer. She intuitively knows what the rest of us study for years to attain. I would gladly work alongside her performing a heart bypass or a blood clot removal..."

When informed of Clinton's feat in the Rose Garden, Tucker Carlson said, "This changes everything. I had no idea Chelsea was so talented. I'm going to revisit my understanding of the First Amendment and free speech. It may turn out that silent obedience is what our Forefathers intended. If so, I'll be downgrading my show to Public Access."

When reached for comment, Anthony Fauci said, "I certainly applaud Chelsea's work in the Rose Garden. I hope, as she was saving the President, she was wearing a mask. Maybe two or three. Brain swelling plus SARS-CoV-2 can induce pregnancy in some males..."

Reached at his bunker in Florida, Donald Trump responded, "Warp Speed, Warp Speed, I did it, Fauci wanted to wait, all the big vaccine companies are terrific, the shot in the arm

makes America great, I take a booster every week..."

The day after his brain surgery, President Biden told his immediate staff, "I had doubts about Chelsea when she stuck that pin in my ear, but now I'm thinking I want to appoint her Vaccine Czar. The young lady knows injections. They have to be delivered gently. Too many people are stabbing other people. Vaccination isn't an organization, it's an idea. You need intellectuals to handle it."

Chelsea's press aide informed CNN she was resting after the double effort of saving the President and employing Aristotelian logic to defeat Tucker Carlson, after which she'll be traveling to a seltzer factory in Ohio to measure CO2 levels, prior to her speech before the United Nations on her climate proposal to reduce oxygen levels in major US cities.

Next week, The New England Journal of Medicine will publish her new study, *"Utilizing Gene Replacement to Reduce Whiteness in Hetero-Identifying Women under the Age of 30: Preliminary Results from Albino Mice."*

Celebrating the 25th anniversary of the transfer of missile-guidance technology from the US to China, under her father's guidance, Chelsea has announced a deal with Northwest Dragon Fashion Limited, a subsidiary of the People's Republic of China, to produce a line of red surgical scrubs emblazoned with the tag line, "Nuke SARS-CoV-2 with the vaccine today."

# The Vaccine (Dis)Information War

[The Vaccine \(Dis\)Information War](#)

by [CJ Hopkins](#), [Consent Factory, Inc.](#)

February 23, 2021

So, good news, folks! It appears that GloboCap's Genetic Modification Division has come up with a miracle vaccine for Covid! It's an absolutely safe, non-experimental, messenger-RNA vaccine that teaches your cells to produce a protein that triggers an immune response, just like your body's immune-system response, only better, because it's made by corporations!

OK, technically, it hasn't been approved for use – that process normally takes several years – so I guess it's slightly “experimental,” but the US Food and Drug Administration and the European Medicines Agency have issued “Emergency Use Authorizations,” and it has been “tested extensively for safety and effectiveness,” according to Facebook's anonymous “fact checkers,” so there's absolutely nothing to worry about.

This non-experimental experimental vaccine is truly a historic development, because apart from saving the world from [a virus that causes mild to moderate flu-like symptoms \(or, more commonly, no symptoms whatsoever\) in roughly 95% of those infected, and that over 99% of those infected survive](#), the possibilities for future applications of messenger-RNA technology, and the genetic modification of humans, generally, is virtually unlimited at this point.

Imagine all the diseases we can cure, and all the genetic “mistakes” we can fix, now that we can reprogram people's genes to do whatever we want ... cancer, heart disease, dementia, blindness, not to mention the common cold! We could even cure psychiatric disorders, like “[antisocial personality disorder](#),” “[oppositional defiant disorder](#),” and other “[conduct disorders](#)” and “[personality disorders](#).” Who knows? In another hundred years, we will probably be able to genetically cleanse the human species of age-old scourges, like racism, sexism, anti-Semitism, homophobia, transphobia, etcetera, by reprogramming everyone's defective alleles, or implanting some kind of nanotechnological neurosynaptic chips into our brains.

The only thing standing in our way is people's totally irrational resistance to letting corporations redesign the human organism, which, clearly, was rather poorly designed, and thus is vulnerable to all these horrible diseases, and emotional and behavioral disorders.

But I'm getting a little ahead of myself. The important thing at the moment is to defeat this common-flu-like pestilence that [has no significant effect on age-adjusted death rates](#), and [the mortality profile of which is more or less identical to the normal mortality profile](#), but which has nonetheless left the global corporatocracy no choice but to "lock down" the entire planet, plunge millions into desperate poverty, order everyone to wear medical-looking masks, unleash armed goon squads to raid people's homes, and otherwise transform society into a pathologized-totalitarian nightmare. And, of course, the only way to do that (i.e., save humanity from a flu-like bug) is to [coercively vaccinate every single human being on the planet Earth!](#)

OK, you're probably thinking that doesn't make much sense, this crusade to vaccinate the entire species against a relatively standard respiratory virus, but that's just because you are still thinking critically. You really need to stop thinking like that. As *The New York Times* just pointed out, ["critical thinking isn't helping."](#) In fact, [it might be symptomatic of one of those "disorders" I just mentioned above](#). Critical thinking leads to "vaccine hesitancy," which is why [corporations are working with governments to immediately censor any and all content that deviates from the official Covid-19 narrative and deplatform the authors of such content](#), or discredit them as ["anti-vax disinformationists."](#)

For example, [Children's Health Defense](#), which has been reporting on so-called "adverse events" and deaths in connection with the Covid vaccines, despite the fact that, according to the authorities, ["there are no safety problems with the vaccines"](#) and ["there is no link between Covid-19](#)

vaccines and those who die after receiving them.” In fact, according to the “fact-checkers” at Reuters, these purported “reports of adverse events” “may contain information that is incomplete, inaccurate, coincidental, or unverifiable!”

Yes, you’re reading between the lines right. The corporate media can’t come right out and say it, but it appears the “anti-vax disinformationists” are fabricating “adverse events” out of whole cloth and hacking them into the VAERS database and other such systems around the world. Worse, they are somehow infiltrating these made-up stories into the mainstream media in order to lure people into “vaccine hesitancy” and stop us from vaccinating every man, woman, and child in the physical universe, repeatedly, on an ongoing basis, for as long as the “medical experts” deem necessary.

Here are just a few examples of their handiwork ...

- In Norway, 23 elderly people died after receiving the Pfizer vaccine. However, according to Reuters’ “fact-checkers,” it turns out, old people just die sometimes, especially in nursing homes, from a variety of causes ... unless they haven’t been vaccinated, in which case they definitely died of Covid, regardless of what they actually died of. For example, a 99-year-old man suffering from dementia and emphysema, who tested negative for the virus three times, was added to the “Covid deaths” figures because a nursing home doctor “assumed” it was Covid (which GloboCap has expressly instructed him to do).
- In Germany, 13 of 40 residents of one nursing home died after being vaccinated, but this was just a “tragic coincidence,” which had absolutely nothing to do with the vaccine.
- In Spain, in another “tragic coincidence,” 46 nursing home residents who received the Pfizer-BioNTech vaccine

[died within the course of one month](#). A further 28 of the 94 residents and 12 staff members subsequently tested positive.

- In Florida, [a healthy middle-aged doctor died from an unusual blood disorder two weeks after receiving the vaccine](#), but, according to the experts, the sudden onset of this rare immunological blood disorder (i.e., immune thrombocytopenia) “should not be interpreted as linked to the vaccine,” and was probably just a total coincidence.
- In California, a 60-year-old X-ray technologist received a second dose of the Pfizer vaccine. A few hours later he had trouble breathing. He was hospitalized and [died four days later](#). His widow says she’s not ready at this point to link her husband’s death to the vaccine. “[I’m not putting any blame on Pfizer](#),” she said, “or on any other pharmaceutical company.” So, probably just another coincidence.
- [A 78-year-old woman in California died immediately after being vaccinated](#), but her death was not related to the vaccine, health officials assured the public. “(She) received an injection of the Covid-19 vaccine manufactured by Pfizer around noon. While seated in the observation area after the injection, [she] complained of feeling discomfort and while being evaluated by medical personnel she lost consciousness.” Despite the sudden death of his wife, her husband intends to receive a second dose.
- [A former Detroit news anchor died just one day after receiving the vaccine](#), but it was probably just a coincidental stroke, which the “normal side effects of the vaccine may have masked.”
- Also in Michigan, [a 90-year-old man died the day after receiving the vaccine](#), but, again, this was just a

tragic coincidence. As Dr. David Gorski explained, “the baseline death rate of 90-year-olds is high because they’re 90 years old,” which makes perfect sense ... unless, of course, they died of Covid, in which case their age and underlying conditions make absolutely no difference whatsoever.

- In Kentucky, [two nuns at a monastery died, and more than two dozen others tested positive, in a sudden “Covid-19 outbreak” that began two days after the nuns were vaccinated](#). The monastery had been completely closed to visitors and Covid-free up to that point, but the nuns were old and had “health issues,” and so on.
- In Virginia, [a 58-year-old grandmother died within hours after receiving the vaccine](#), but, as Facebook’s “fact checkers” prominently pointed out, it had to be just another coincidence, because the “vaccines have been tested for safety extensively.”

And then there are all the people on Facebook sharing their stories of loved ones who have died shortly after receiving the Covid vaccine, who the Facebook “fact checkers” are doing their utmost to discredit with their official-looking “fact-check notices.” For example ...

My heart is broken. This is a pain I knew I would have to face one day and I knew it would be one of the hardest things to face. We had to say "see you later" to my dad yesterday. He was one of my absolute favorite people and he knew it. He was my best friend. He was the one I would call if I was going through something like this and I would say "Dad, what am I supposed to do" I would just call sometimes to hear his voice. I will miss his voice. He was an amazing dad and an amazing grandpa. People want to know what happened. I will tell you so you know, but we are processing through this. He got the vaccine yesterday morning, had a headache after so he laid down to take a nap and he never woke up.

I have the blessed assurance of where he is. He loved God and he loved Jesus. So yesterday was a glorious day for him. He got to meet Jesus and God face to face. He is dancing and rejoicing. And though this is one of the most painful losses I will face, I too have that same hope and I will see him again someday.

OK, I realize it's uncomfortable to have to face things like that (i.e., global corporations like Facebook implying that these people are lying or are using the sudden deaths of their

loved ones to discourage others from getting vaccinated), especially if you're just trying to follow orders and parrot official propaganda ... even the most fanatical [Covidian Cultists](#) probably still have a shred of human empathy buried deep in their cold little hearts. But [there's an information war on, folks!](#) You're either with the Corporatocracy or against it! This is no time to get squeamish, or, you know, publicly exhibit an ounce of compassion. What would your friends and colleagues think of you?!

No, report these anti-vaxxers to the authorities, shout them down on social media, switch off your critical-thinking faculties, and get in line to get your vaccination! The fate of the human species depends on it! And, if you're lucky, maybe GloboCap will even give you one of these nifty numerical Covid-vaccine tattoos for free!

# [Satire] Bill Gates Warns of the Sacrifices We'll Have to Make in Stirring Speech Given From His \$650,000,000 Super Yacht

[Bill Gates Warns of the Sacrifices We'll Have to Make in Stirring Speech Given From His 650 Million Dollar Super Yacht](#)

*"I wanted a 500ft, 1 billion-dollar mega yacht, but I settled for this clunker just to show how committed I am to the cause."*

by [The Babylon Bee](#)

February 20, 2021

PORTLAND, OR—Bill Gates, one of the wealthiest men alive, is passionate about fighting climate change. In a recent interview, he warned everyone of the sacrifices we will have to make to avoid a climate disaster. This statement was broadcasted live from his 367 foot long, 650 million dollar superyacht, the Aqua.

“It won’t be easy. There are a great many obstacles we must overcome if we are to survive climate change,” said Bill Gates. “But this may mean giving up some of the luxuries we love the most. We will all have to substantially reduce our travel, fuel expenditures, and switch entirely to synthetic meats. Only then do we stand a chance.”

Mr. Gates stressed how we will all have to put all of our resources together if we really want to make a difference. “I wanted a 500ft, 1 billion-dollar mega yacht, but I settled for this clunker just to show how committed I am to the cause,” said Mr. Gates as he left his onboard 5-star spa. “If we go just 15 years without cars, burning fossil fuels, and we all eat bugs we can reverse the damage to our planet.”

Bill Gates was excited to announce the first of its kind hydrogen-powered engine onboard the Aqua. “There’s truly nothing like it. But I just don’t get why everyone else on the planet can’t switch to a state-of-the-art, prototype fuel source like me!”

Mr. Gates wanted to say more, but he was informed his prime rib had just come off the charcoal grill. When we met up with him on the 7th floor he was already eating something suspiciously not synthetic looking. “You’ll get used to the taste!” he said. “I know for me I almost think it’s the real thing!”

Once again, our interview with Bill Gates was cut short as we heard a helicopter landing on one of the yacht’s upper decks. “Oh! That must be John Kerry!” said Mr. Gates. “He’s here to talk about making the burning of fossil fuels punishable by death!”
