

Social Creptocurrency?: A Letter to the Editor From Isabel H.

[Editor's Note: Isabel H. wrote a letter to me recently with the subject line "Social Creptocurrency?". She has been doing some interesting dot connecting around the proposed use of specific body activities as a way to earn cryptocurrency. She wanted to put this information out there for other researchers and to share her questions with readers here, hoping that someone might be able to use her information for deeper research. ~ Kathleen]

Social Creptocurrency? – Notes from the research of Isabel H.

What could possibly be a connection between a cryptocurrency system using body activity data (patented by Microsoft), a Texas lawyer representing undocumented immigrants, and GRIMES, Elon Musk's girlfriend?

Maybe none.

However, it is interesting how they seem to intertwine.

Let's start with the cryptocurrency system, patented under publication number: W0/2020/060606 – publication date: 26/03/2020.

Checking the documents available on this page, we can see that on 20/04/2020 there was twice a "Request for change under rule 92bis" – both times the request was made by the same person, Nicole True. Once as the applicant-inventor, acting as a 'Natural person' T. Nicole – and at the exactly same time (20 April 2020 04:04:37 EST) another one where Nicole True apparently was the applicant, this time not acting as a natural person but as a Legal entity with the mention of

“Succession: Legal Heirs”.

But the real strange thing on both documents seems to be the message...

This message says: *Hello, Nicole True here, I would like to travel to Tokyo with GRIMES. Thank you.*

Isn't this a rather strange message to appear on a document Request for Change under Rule 92bis concerning a patent from Microsoft with regard to a cryptocurrency system?

Who is Nicole True anyway?

According to Google: **Nicole True** practices state and federal criminal defense and immigration law. Her primary interests include representing undocumented workers and citizens from other countries detained under state and federal law.

And who is GRIMES? And is she travelling to Tokyo soon?

According to Wikipedia: **Claire Elise Boucher** (born March 17, 1988), known professionally as **Grimes**, is a Canadian singer and musician. (...) Since 2018, Boucher has been in a relationship with technology entrepreneur Elon Musk. (...) On January 8, 2020, Boucher announced that she was pregnant with her and Musk's first child together. Grimes gave birth on May 4, 2020, with Musk announcing via Twitter that both Grimes and their baby were doing well. Boucher and Musk have stated that

they named the child as “X Æ A-12” (pronounced “Ex Ash A Twelve”)

There is no info about Grimes travelling to Tokyo in 2020. The last time she was there – as per internet info – was in January 2016, when she did “The Acid Reign Tour” (yes – you read that right *Acid Reign*...).

Stranger things have happened – or did they?

Maybe. Elon’s grandfather on his mother’s side, Dr. Joshua Norman Haldeman, was a very versatile person, to say the least. He developed national and international stature as a political economist, provincial and national professional leader, and sportsman/adventurer. *“Dr. Haldeman also earned a place in the political history of Canada, owing to his service as research director for Technocracy, Inc. of Canada, his national chairmanship of the Social Credit Party during the second world war, and his unsuccessful bid for the national*

parliament.”

*As per Wikipedia: The Canadian social credit movement was largely an out-growth of the Alberta Social Credit Party – The **Alberta Social Credit Party** was a provincial political party in Alberta, Canada, that was founded on social credit monetary policy put forward by Clifford Hugh Douglas and on conservative Christian social values.*

The basic premise of social credit is that all citizens should be paid a dividend as capital and technology replace labour in production.

The Alberta Social Credit Party changed its name in May 2017 and is now the Pro-Life Alberta Political Association (PAPA), a registered political party in the Canadian province of Alberta (prolifealberta.com).

So, what could possibly be a link between all this?

As per “the application body as filed” for W0/2020/060606, lines 15-19:

Body activity data may be generated based on the sensed body activity of the user. A cryptocurrency system communicatively coupled to the device of the user may verify whether or not the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.

... sounds a bit ‘social’, doesn’t it?

Social /'səʊʃ(ə)l/

adjective: relating to society or its organization.

Maybe it might be interesting to ‘offer’ undocumented workers and citizens from other countries detained under state and federal law this new cryptocurrency system – just to try things out?

They have nothing to lose – and when *the body activity data satisfies one or more conditions set by the cryptocurrency system* they can be awarded cryptocurrency.

You know, like *social credit*, where *citizens should be paid a dividend as capital and technology replacing labour in production*.

The road to social creepocurrency indeed...

Robert Cinque on the Covid Psyop & 5G as Tools for Furthering the Police State

Subject: cv19 is a well thought out plan but Trump could expose it

by **Robert Cinque**

May 8, 2020

If Trump reopens the economy, I think the satanists will turn up the 5G and fry more people, blame the virus, blame Trump. If he knew about the connection between 5G and illness I wonder if he would announce this? I don't think so, he is way into 5G. He is also way into Lubavitchian armageddon eschatology, Greater Israel Rothschild, vaccinations, fiat currency, unfortunately.

But if he found out about 5G and told the truth, and revealed the deadly psyop this thing really is, he would trump all those weapons against him and us and become a hero and sweep the election.

From Ray Songtree:

"5G will further the police state by producing evidence of

“Covid”, which would be 5G produced symptoms and 5G produced “positive test” results. This is why the two are scheduled together, right now. It is not coincidence.

The 5G is helping create what appears to be a pandemic, and the distraction of the pandemic is allowing 5G to be rolled out without resistance.”

I don't see how 5G can be defeated without really widespread understanding among the people, or even then. Google has slashed and burned all the sites pointing out the 5G connection to disease and trashed them as dangerous conspiracy theories that violate community standards. It also trashes chlorine dioxide as bleach. This means we are on the right track. Chlorine dioxide is to big pharma what a free energy machine is to oil industry, and they know it.

A little history: When I read Jon's [editor: *Jon Rappoport – nomorefakenews.com*] book [AIDS, Inc](#) I hit the floor, then the ceiling. I studied oxygen therapy, refinanced my house, bought a medical grade ozone machine and started treating people with AIDS, etc.

I apprenticed myself to an MD in Seattle for six months who was using ozone. I didn't want to make any mistakes and he was glad to teach me what he knew so I got excellent training.

Autohemotherapy was the current favorite method in which blood is drawn from one arm, ozone is bubbled through it and then returned to the other arm extremely excellent results. Then we just started injecting it directly into our veins.

I injected myself with ozone in public, at State Fairs, was trying to pick a fight with the AMA. I ended up in jail for Practicing Medicine without a license and did not get my day in court, which is what I wanted, a nationally televised trial that would showcase the evidence about O2. My attorney was [editor: *name of well-known libertarian attorney removed to protect privacy*]. She was a huge disappointment and I went to

jail on a year sentence, got out in 4 months.

Germany led the way in ozone therapy in the 40's, the Allies bombed every single one of their facilities, left AG Farban/Bayer/ Monsanto untouched. Oxygen therapy obsoletes antibiotics and has been suppressed in that same way that clean technologies have been.

A man named Daniel Smith in Spokane had a big health food and supplement business called Green Project in which he sold MMS. The FBI shut him down, put him in jail for 3 years. He was not allowed to defend himself at trial, nor bring witnesses or evidence, much like Mr Assange. The FDA recently sent a letter of cease and desist to the genesis church for advocating MMS. Not a single death has ever come from MMS, only hard-to-believe-but -true recoveries.

Chlorine dioxide is MUCH better than ozone, no injections and not as hot as ozone and stays in the body as a gas for 2 to 3 hours before dissipating, gets to even the deepest tissues which is why it is effective in brain cancer.

Robert Cinque on the Importance of Exposing the False Narrative Around Viruses

A letter from Robert Cinqu to Kathleen, editor at Truth Comes to Light – shared with his permission

Subject: One well placed stone is all that is needed

by **Robert Cinque**

May 2, 2020

I'm convinced that the only way to defeat the medical takeover of humanity is to remove its operating system: the assumption that the presence of viruses in the body is the cause of illness.

This false assumption is the foundation of the AI enslavement agenda, but it has no power if the lie can be deconstructed.

Even smart people like Mike Adams believe in the virus narrative. Only Jon Rappaport is saying what's true. His voice must become the Stone in the Slingshot.

I want to see a serious concentrated focus on the real science of how the body works and how disease is caused and how it is cured.

I am very glad that you are championing Kaufman and Buttar.

But, David's stone is still lying on the ground, Goliath is chuckling, and humanity is like a deer in the headlights.

Google and YouTube have censored everything about 5g poisoning and are calling the whistle-blowers dangerous liars.

There is really only one thing to do. Remove the germ theory malware from the human operating system and install what Antoine Bechamp was screaming at Pasteur about 200 years ago: "the microbe is nothing, the terrain, everything!!".

Goliath was overconfident because he was big. But size does not determine strength or power. Truth determines strength and power and can be wielded even by a young boy.

Nothing would give me greater pleasure than watching the entire global network of the genocidal pharmaceutical syndicate crash and burn overnight. This is literally possible because of how fast information travels. One spark can burn down the whole barn.

Lets focus on this. Let's put aside every other concern and

pay attention and spend time on installing the new software.

Actually, its already installed , but malware has rendered it dysfunctional.

We need to reboot the organic software and wipe the floor with globalist rags.

Robert Cinque: This is What I Have Learned, So Far

[This is What I Have Learned, So Far](#)

by Robert Cinque

April 27, 2020

Experimentally provable, scientifically credible summary:

The Germ Theory is 100%, completely wrong

The presence of viruses in the body does not prove that they are the cause of disease

Correlation does not prove causation

Viruses, somatids, pleomorphs and bacteria appear when cells are toxic and injured. They exist to clean up the debris

Koch's Postulates were not applied to covid19

Hospitals are being given \$13,000 for every covid19 diagnosis by the NIH

According to Kerry Mullis, inventor of the PCR test, it cannot be used for diagnosis of disease

The test packets contain a disclaimer that says: Not to be used for diagnosis of disease

The tests test for antibodies and genetic sequence, which does not prove causation

Viruses originate within the cells, are DNA and RNA fragments

Pasteur stole Bechamp's research who proved that fermentation takes place even within a closed container, proving that bacteria, etc, exist within the cells

Assigning a single cause for a plethora of reasons why the cells become stressed is unscientific and is not supported by the data. In Wuhan, 130,000 5G towers, severe air pollution and mandatory vaccinations just might have something to do with people dying.

Hypoxia is not pneumonia. 5G wavelengths disrupt hemoglobin's ability to absorb oxygen because iron is attracted to magnetic fields.

Chlorine Dioxide is native to the cell, along with ozone and hydrogen peroxide, and kills pathogens through oxidation.

The FDA falsely claims that chlorine dioxide is bleach, a chlorinator. No, it is an oxidizer, huge difference

Disease is caused by toxicity, obstruction, congestion, nutritional deficiency, and environmental poisons, like 5G, pesticides, fluoride, heavy metals, glyphosate, GMO's and pharmaceutical poisons masquerading as medicines. Suppressing symptoms does not a cure make.

Viruses are the effect, not the cause, of disease

Allopathic medicine uses drugs, radiation and surgery in a warfare model which posits invaders from outside the body as the sole cause of disease.

Politicized science is not science, it is agenda that hijacks actual science and inverts it to justify its conclusions

Health is the result of taking personal responsibility for adequate nutrition, fresh water, sunlight, oxygen, rest, love, purpose and direction.

Disease is the result of a failure to care enough to live in

alignment with Reality and cannot be prevented by vaccines, drugs, or the confusion of cause with effect.

Examples: What is called cancer is the body's response to low oxygen levels. Unable to combust the glucose in the mitochondria, the cell has to live on fermented glucose and forms a tumor in order to do so. Flood the body with oxygen, cancer disappears.

Osteoporosis is the body's response to high acidity in the blood. Minerals like calcium are stolen from the bones in order to buffer the acidity. Restore minerals to the diet, alkaline ph is established, osteoporosis disappears.

Governments peddle the germ theory because it makes a ton of money and creates the illusion that it is protecting the people from invaders.

Childish fairy tales are for children. The hard, cold facts are for adults.

Sharing Our Global Experience: A Message from Jeff in Wisconsin, USA

[Sharing Our Global Experience: A Message from Jeff in Wisconsin, USA](#)

by **Jeff Baker**, contributing writer at [Truth Comes to Light](#)
April 13, 2020

Hey there Ya’ll,

I’m writing this from a town coined in a song from John Prine- “Lake Marie” – Standing by Peaceful Waters. It’s a lot more peaceful here than where I used to live in Florida and Illinois. We are at an end of an Age and beginning a New Age.

The life we lived up until now is at a crossroad. Old Paradigms are being replaced by new ones that we create with our hearts and minds. I don’t have to say this because all who are reading this now already know this. We come to sites like the one Kathleen has created with “Truth Comes to Light” to seek reassurance we aren’t crazy for some and for others a

sense of community.

I can safely assume most of us do not live near or know anyone close to us that think like we do. Since I can remember from my earliest days I don't think and act like my family, friends and other people I come into contact with. The friends I have met tend towards the way I think, but from a Spiritual stand point we tend to be farther apart.

I never fit into groups in grade school-middle school-high school and 40 years later I still don't. I have been on my own until the Internet was developed and I found others that think like I do. I have always had a hard time working for others and have been most successful being self employed.

The main point I want to say is – We are going to be OK. During a New Age we are free to create a New World where peace reigns, no one is homeless, hungry or alone (We can actually Create anytime we are in embodiment on any world). We are All Powerful and with a mere thought can create anything we want – Be Careful on what you create – We Don't want to create some of the dark features of the paradigm we are exiting.

Getting back to Spirituality – At the age of 12 I had my inner voice (spiritual presence) tell me that I was going to be involved with something huge and important. By the age of 35 nothing huge or important than I was married and had 1 child with my wife (there is an older child I have also). What I am doing now is probably what was forecast to me. I have always seen movements from the corners of my eyes – spirits I will call them. I can sense darkness in places like older buildings and outdoor areas. I can sense areas of light and high energy too. I can communicate with animals- especially birds. I can see faces in clouds-trees-rocks anywhere.

When I was 18 my sister took me to have a reading by a psychic and I remember her stop at one point and she mentioned that there were at least 7-8 spiritual guides around me with more

not too far away. She had never experienced that before. I have escaped death on more than 1 occasion. Falling onto a pane sheet of glass at 10 years old and the long shard went into my butt cheek and not my abdomen. Near drowning 3 times. Motorcycle and car crashes and several more bizarre incidents.

The one that woke me up was when I was painting the outside of a house in 2005. I was on an aluminum ladder at 25 feet up on a concrete pad when I suddenly found myself attached to the power line by my right arm. I could feel the a/c going in and out and knew my life was near an end. Suddenly I felt detached from the situation and was told that I could leave this body now and go on or I could stay and complete my mission here on Earth. I chose to stay and I immediately pushed on a window which drove the ladder onto the power line and all I remember was a bright flash. I came to on the grass 10 feet away with no broken bones or cuts. I died that day and was given a chance to live this life.

Since then I was spiritually directed to many books and web sites learning about spirituality, meditation, prayer and much more. I have learned that I know what others around me are thinking (I keep that turned off now). I can calm down situations and people around me when they are overtaken by dark entities (It only lasts until I leave the Situation). The nightmares I had for much of my life are gone because I have taken control of my conscious and unconscious mind dispelling those dark entities which are always circling all of us.

Ok – I'm long winded. I once bought a book on how to write a book, but gave it away after never reading too far into it.

You can create anything. I used to dispel the clouds and send storms around me when I lived in Florida so when I went to the beach it was sunny right where I was. I do recommend to find and read books on how to use prayers, mantras and flames/light (white-pink-violet and much more) to heal and help Planet Earth, people, plants, animals and everything else in

existence.

[Sharing Our Global Experience: A Message from Tally in the Cayman Islands](#)

by **Tally**, written from the Cayman Islands

Tally will share occasional updates as things unfold.

Hi Kathleen,

I am here because of my sister passing and taking care of her estate. I'm living in the Dominican Republic and didn't realize that the DR had closed it's borders so soon...so I am trapped here. I guess that term is a little strong...but it's true...if you can't leave you are trapped.

It looks like the Govt. just moved the goal posts back. They were talking about the end of April and now the end of May to open up the airport. They have closed down Western Union on some flimsy excuse that people won't keep their six foot distance...but the grocery stores are open and every one is keeping their six foot distance. Also it appears that wire transfers through the banking system are not working for the past few days ...maybe that's just a glitch.

The Govt. just brought in 200,000 Carona testing kits. Enough to test everyone 3 times. It appears that the Govt. is ramping up to test 500 people a day. <https://www.caymancompass.com/2020/04/08/no-new-covid-cases-plans-for-widespread-testing/> Any one that is partially conscious knows that these tests are bogus and will result in many false positives. What will be the outcome of a rise in cases testing positive...the Zombies will go hysteric...probably total lock down....and what ever else our masters want to do to us. LOL

At the moment they split the Alphabet in half and people can go to the grocery every other day, except Sunday. Sunday is total lockdown...I love that term...the Zombies don't get it. All other days there is a curfew from 7 pm until 6am...but if you are out on non essential business you can get fined or possible jail sentence.

The Cayman Islands are a British territory. Grand Cayman 7 x 20 miles long. Here not to long ago they released GMO mosquitos. The results I have not been able to find out.

Some people are saying there is an increase of cancer on the Island...just hearsay. That just shows you that the Govt. has no qualms about conducting experiments on their own people.

I have been awake for 17 years now...I knew this was coming and it caught me off guard. I should be with my two daughters in the DR...not stuck here...oh well that's the way the cookie crumbles. LOL I am staying with my sisters friend. She has a TV...they are running commercials making people feel so good about their "lockdown"...the Zombies are loving it, doing their part. LOL I hate television....

Thanks for letting me vent... and with them bringing in 200,000 test kits.. just wanted others to know...will be interesting to see what happens next.

You have permission to post anything I have sent.
