## **Excerpts from Transcript:**

### **Catherine Austin Fitts**

*"It's so hard for a lot of people to understand. They haven't, you know, they haven't spent the time looking at what's really going on under the carpet. And so, if you haven't done that, you can't fathom, you know, that someone would envision downloading operating software into human body and hooking it up to the DOD cloud."*

### **Dark Journalist**

*"I've noticed that you haven't cut Trump a lot of slack recently. You kind of see him as part of this, in a weird way."*

### **Catherine Austin Fitts**

*"You know, here's the thing. Trump, if you look at what's really going on with the riots, yes, you're talking about many different broken laws. Yes, so you have people financed across state borders and do serious property damage. And some of them may or may not be, you know, somebody's got guns... My guess is you've got mercenaries going in there too. And all sorts of other things... somebody financing people, like an army going in and destroying property. You know this is all illegal and the Department of Justice can shut it down in 24 hours.*

*,,,So don't tell me they can't shut this down. They can shut this down like that, and if they're not doing it, there's a reason."*

*“Those aren’t street revolts. That’s an operation. Right? So let’s call what it is. It’s a multi-layered op. And it’s an op and somebody’s financing the op.”*

9:16

## **Dark Journalist**

*“What would be the aim of having that kind of chaos in the streets?”*

## **Catherine Austin Fitts**

*“And I’m gonna grossly oversimplify, just to help you understand the concepts. So you start, let’s go back to 1995. You can’t get the budget deal through. You give up on the country. You decide to pull all the money out. So 21 trillion gets moved out. You move out another 24 trillion with the bailouts. You know, you have some other fraud... 50 trillion dollars pulled out of the mechanism. Right? But what’s not pulled out of the mechanism, you still have obligations. You have military pensions, you have social security, you have all these health care obligations. So you’ve pulled the assets out but you haven’t gotten rid of the liabilities. Well, how do you get rid of the liabilities? If you have a civil war and people demand that their states secede from the nation, you can say, well... the people didn’t want the vehicle anymore. So they they would rather walk away. ... They chose to secede rather than get social security.”*

## **Dark Journalist:**

*“So it has to be coordinated on both sides of the political aisle?”*

## **Catherine Austin Fitts**

*“Right. You need a war to get the people to self-destruct their own covenant. In other words, you know they are owed trillions of dollars in health care, trillions of dollars in retirement obligations, trillions of dollars in many different sort of regulatory obligations. And now what you want to do is, you want to slither out of them without admitting that you stole all the money.”*
