Dark Journalist:

“2025. What does American look like in 2025?”

Catherine Austin Fitts:

*“You know something, the possibilities are so many it’s impossible to say. Because what we’re watching is a war. We’re watching a spiritual war, a consciousness war, a legal war, a physical war. I mean, we are in a **war**. And what’s interesting is, if you look at the group that’s trying to basically load an operating system into our bodies and our minds, they’re making it up as they go. They don’t have this locked down. And they’re doing something that is, not only experimental, but it’s very hard to do.*

So if you look at the very unpredictable ways this could spin, it’s quite extraordinary. And I never underestimate the ability of the human race – with our intention, with our intelligence – to shift the direction of where this goes.”

Dark Journalist Daniel Liszt Interviews Former Assistant HUD Secretary and Solari Report Publisher Catherine Austin Fitts on the deep divide between those embracing freedom and a human civilization and those fixated on domination and subjugation.

Picking up from [Part 1](#), Fitts describes how her many years in Government and High Finance have shown her that those in control, which she calls “Mr. Global” believe in slavery and have contempt for humanity.

She now sees that citizens around the world are at war with Mr. Global and his Central Banking Warfare Machine! View Part 1: vimeo.com/523078687

World Dictatorship

Through AI, excessive surveillance, entrainment and mind control technology this powerful group believes they are on the threshold of ushering in a world dictatorship with automation and robotics to replace humans in the labor force.
