Catherine Austin Fitts (CAF), Publisher of The Solari Report, financial expert and former Assistant Secretary of Housing (Bush 41 Admin.), has long said, “The federal government is being run as a criminal enterprise. . . .not just a little criminal, but a lot criminal.” Now, CAF contends what is going on in America is much more than greedy criminals. CAF says, “This has turned into warfare against “We the People” on a spiritual level.”

CAF goes on to point out, “There is so much effort in persuading people to think there is nothing you can do, and it’s hopeless. Let me tell you something . . . the central bankers are telling you what they are going to do, and this is not far away in the future. You have all these merchant codes where you cannot use your credit card to buy a gun or the bank throws you out. That’s the control grid getting built.”

What can you do to fight for freedom? CAF says, “Bring transparency, and the second thing is to use cash. If we can all use cash, build cash back up and keep checks going, if you have cash and checks, they cannot go to an all-digital financial system. Find out who is leading the way in your state, and see what you can do to support them. Above anything, you can pray because this is a spiritual war. The

devil wants you to believe it's hopeless and there is nothing you can do. . . . It's not true. The sane cannot go along with the insane. The divine cannot go along with the demonic. You have to say NO! I am seeing this all over the country. I am seeing Treasurers and State Attorney Generals, and they are all pushing back because they realize this is insane. You cannot go along with this."

CAF says not only do the Deep State globalists want control of the financial system, but they also want control of your food. CAF says, "You see at this level when you are trying to protect freedom, they cannot get financial control unless they can control the food supply. People can always start their own currencies as long as they can grow food. If you look at the push for financial control and central bank digital currency, it is the same push. They are pushing to control the food supply."

CAF thinks Washington is so broken, corrupt and criminal that whoever wins the Presidential Election it will not make much of a difference. CAF points out, "Look at how quickly Speaker Mike Johnson caved. Speaker Johnson caved for Ukraine and war all over the world, but he won't protect our borders. Mike Johnson, Christian, conservative and not a dime to protect our borders. . . Washington is a criminal enterprise, and there is no electing someone big enough to change this. This is not Trump vs Biden. This is the pro-centralization team in Washington. We have to pull power back from Washington."

There is much more in the 56-minute interview.
