

CDC Admits Vaccine Safety Failures

[CDC Admits Vaccine Safety Failures](#)

by [Del Bigtree](#), [The HighWire](#)

August 24, 2020

On July 29, 2020, after months of false claims and objections, the CDC finally conceded that it could not find a single study comparing health outcomes between vaccinated and unvaccinated children and that it “has not conducted a study of health outcomes in vaccinated vs unvaccinated populations.”
