

CDC Confesses: Our DHCPP “Experts” Have Never Obtained Scientific Evidence of Any Alleged “Virus”... Including “Hantavirus”

[CDC Confesses: Our DHCPP “Experts” Have Never Obtained Scientific Evidence of Any Alleged “Virus”... Including “Hantavirus”](#)

by [Christine Massey, Christine Massey’s “germ” FOI Newsletter](#)
August 26, 2024

Greetings and Best Wishes,

April 12, 2024:

A FOIA request was filed with the **U.S. Centers for Disease Control and Prevention (CDC)** and the **Agency for Toxic Substances and Disease Registry (ATSDR)** (see [pages 1 & 2](#)) for all studies/reports in the possession, custody or control of the institutions:

- that **scientifically prove/provide evidence of the existence of any alleged “hantavirus”** (showing that the alleged particles exist and cause the illness/symptoms they are alleged to cause), or
- that even describe **purification of particles alleged to be “hantavirus”** directly from bodily fluid/tissue/excrement of “hosts”, with purification confirmed via EM imaging, or
- wherein the **purported genome of the alleged “hantavirus” was found intact** (as opposed to fabricated in silico aka

computer modeled), or

- that **scientifically demonstrate contagion** of the illness / symptoms that are allegedly caused by said purported “virus”.

As usual I asked that if records matching my request were held but were already publicly available, I be given citations so that I may identify and access each one. I also clarified that my request was not limited to records authored by the CDC or ATSDR but included records *authored by anyone, anywhere, ever*.

May 10, 2024, #24-00976-FOIA:

Roger Andoh acting as CDC/ATSDR FOIA Officer in the Office of the Chief Operating Officer responded, citing only the first section of my request where I asked for studies providing **scientific evidence of the existence of the alleged virus**.

Before looking at Roger’s response, please review the exact wording of that section of my request. I hadn’t even asked for evidence of particles infecting cells, hijacking them and making copies of themselves, which according to “virus” dogma “viruses” do. I have never asked for such evidence in any of my requests. My requests have been much simpler than that.

Description of Requested Records:

1. All studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) that scientifically prove/provide evidence of the existence of any alleged “hantavirus” (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause).

Note:

Scientific proof/evidence is NOT

- opinions, speculation, declarations, or
- review papers, or
- descriptive studies.

Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments - which require a valid independent variable (suspected “virus” particles that were found in sick “hosts” and purified).

And yet, despite the simplicity of my request, not only did Roger confess that **“we do not have any documents pertaining to your request”** (written by anyone, anywhere, ever)...

... he also disclosed that the “experts” in the [Division of High-Consequence Pathogens and Pathology](#) have never obtained scientific evidence of purported “viruses” existing in “hosts” and causing the illness/symptoms that they are claimed to cause. Because virology was never a science.

See [pages 7 & 8](#):

*“The Division of High-Consequence Pathogens and Pathology has stated that **the procedure asked about in this FOIA request is not a methodology or procedure that the branch utilizes or has ever implemented. DHCPP routinely, per protocol, places samples on cell culture post sample receipt or conduct RT-PCR.**”* (emphasis added)

Centers for Disease Control
and Prevention (CDC)

Ms. Christine Massey

[REDACTED]
Via email: cmssyc@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of April 15, 2024, for

All studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) that scientifically prove/provide evidence of the existence of any alleged "hantavirus" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause).

The Division of High-Consequence Pathogens and Pathology has stated that the procedure asked about in this FOIA request is not a methodology or procedure that the branch utilizes or has ever implemented. DHCPP routinely, per protocol, places samples on cell culture post sample receipt or conduct RT-PCR. Therefore, we do not have any documents pertaining to your request.

You may contact our FOIA Public Liaison at 770-488-6246 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App/Index.aspx>. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be electronically transmitted by August 11, 2024.

Sincerely,

Roger Andoh
CDC/ATSDR FOIA Officer

(The various problems with PCR "tests" and the use of cell cultures in virology have already been discussed by many at great length.)

I followed up with Roger ([pg 9](#)) asking about the remaining sections of the request: records of the alleged “virus” simply being found and purified from bodily fluid/tissue/excrement of “hosts” (required for valid analysis and experiments), records of the alleged “viral genome” having been found intact anywhere, and studies providing scientific evidence of illness contagion.

Roger never responded. Based on my knowledge of the virology literature and the [100% failure rate](#) of 224 institutions in 40 countries responding to requests for foundational “virus” evidence I am confident that such studies do not exist, anywhere.

[Here](#) is the CDC’s web page on imaginary “hantaviruses”. Hmm, where have we seen those “signs and symptoms” before?

Signs and symptoms

Hantavirus Pulmonary Syndrome (HPS)

HPS is a severe and potentially deadly disease that affects the lungs. Symptoms of HPS usually start to show 1 to 8 weeks after contact with an infected rodent.

Early symptoms can include:

- fatigue
- fever
- muscle aches, especially in the large muscle groups like the thighs, hips, back, and sometimes shoulders

About half of all HPS patients also experience:

- headaches
- dizziness
- chills
- abdominal problems, like nausea, vomiting, diarrhea, and abdominal pain

(Note: this information has been sent to [~200 people](#) who work

for “the state”, lamestream media, etc. at Canada, Isle of Man, England and the U.S., so that they can’t claim later that they didn’t know.)

More Official Confessions/Evidence Showing that Virology is Pseudoscience

Freedom of Information Responses reveal that **health/science institutions around the world (224 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:**

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

Excel file listing 224 institutions:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2024/08/Institution-list-for-website.xlsx>

FOI responses re other imaginary “viruses” (HIV, avian influenza, HPV, Influenza, Measles, etc., etc., etc.):

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

FOIs re secretive and unscientifically “mock infected” cells (aka invalid controls) and fabricated “virus genomes”:

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

3000+ pages of “virus” FOIs in 8 compilation pdfs, and my notarized declarations re the anti-scientific nature of virology:

<https://tinyurl.com/IsolationFOIs>

Failed freedom of Information responses re contagion:

<https://www.fluoridefreepeel.ca/freedom-of-information-responses-re-contagion/>

Do health and science institutions have **studies proving that**

bacteria CAUSE disease?

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because “they” (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don’t exist and virology isn’t a science.

For truth, freedom and sanity,
Christine
