November 2, 2020

*A call to sheriffs, police officers, military, attorneys, and any honest politicians in America: WILL YOU DEFEND FREEDOM IN THIS COUNTRY?*

(Thanks to journalists Jefferey Jaxen and Del Bigtree for exposing this nightmare.)

The CDC document is titled: "Interim operational considerations for implementing the shielding approach to prevent COVID-19 infections in humanitarian settings," updated July 26, 2020. Here are key quotes.

As you read them, and realize the horrific plan, keep in mind that this system can be manipulated to order ANYONE into these camps.

This is America??

"The shielding approach aims to reduce the number of severe COVID-19 cases by limiting contact between individuals at higher risk of developing severe disease ('high-risk') and the general population ('low-risk'). High-risk individuals would be temporarily relocated to safe or 'green zones' established at the household, neighborhood, camp/sector or community level depending on the context and setting. They would have minimal contact with family members and other low-risk residents."

“...the shielding approach suggests physically separating high-risk individuals from the general population to prioritize the use of the limited available resources and avoid implementing long-term containment measures among the general population.”

“A group of shelters such as schools, community buildings within a camp/sector (max 50 high-risk individuals per single green zone) where high-risk individuals are physically isolated together. One entry point is used for exchange of food, supplies, etc. A meeting area is used for residents and visitors to interact while practicing physical distancing (2 meters). No movement into or outside the green zone.”

“Consideration: Plan for an extended duration of implementation time, at least 6 months. Explanation: The shielding approach proposes that green zones be maintained until one of the following circumstances arises: (i) sufficient hospitalization capacity is established; (ii) effective vaccine or therapeutic options become widely available; or (iii) the COVID-19 epidemic affecting the population subsides.”

How would you like to be imprisoned in one of these camps?

IS THIS THE AMERICA YOU WANT?
