

Christine Massey Interviewed by Prof. Michel Chossudovsky: On FOIA Requests & Responses to the Question – Has SARS-CoV-2 Ever Been Isolated? Does the “Virus” Exist?

[Christine Massey Interviewed by Prof. Michel Chossudovsky: On FOIA Requests & Responses to the Question – Has SARS-CoV-2 Ever Been Isolated? Does the “Virus” Exist?](#)

by [Christine Massey](#) and [Prof Michel Chossudovsky](#)

August 18, 2021

The Chinese authorities announced on January 7, 2020 that they had isolated and identified “a new type of virus”. Then on the 28th of January 2020, the US Centre for Disease Control and Prevention (CDC) stated that [the novela corona virus had been isolated.](#)

Christine Massey, M.Sc conducted an extensive report over a period of more than a year. The central question raised in her study is the following:

“is there reliable evidence that SARS-CoV-2 has been isolated from an “unadulterated sample taken from a diseased patient”?

Christine Massey submitted Freedom of Information (FOI) requests to some 90 Health /Science institutions.

Does the Virus Exist? The responses to these requests confirm

that there is no record of isolation / purification of SARS-CoV-2 "having been performed by anyone, anywhere, ever."
