

Concerned Lawyers Network Unites Against Ongoing Crimes Against Humanity: “Notice of Liability” Issued to State and Federal Governments of Australia

Concerned Lawyers Network Unites Against Ongoing Crimes Against Humanity: “Notice of Liability” Issued to State and Federal Governments of Australia

Commentary by **Kathleen Stilwell**, *editor, Truth Comes to Light*
November 7, 2020

Below you will find **Concerned Lawyers Network’s** powerful letter, presenting a [Notice of Liability & Potential Claims](#) to all Australian heads of government, ministers, CHOs, governors and commissioners of police.

The 36-page letter provides extensive documentation challenging the Covid-19 narrative, including the question of whether the Covid-19 virus was ever isolated. It also explores the evidence related to the premeditation of this so-called pandemic.

Within the letter you will find

- a detailed **summary** of facts,

- legal questions** regarding the measures taken by governments in response to the “pandemic”,

information about **false pandemics** in the past,
existing patents on covid-19,
problems with **modeling and tests**,
how covid **test kits** were sold before covid-19 was
supposedly discovered,
how **DNA of individuals** is being harvested from the testing
process,
links to the **Gates Foundation**
and much more.

You will find a list of **exhibits** with links to documents that
detail

conflicts of interest,
deaths and cases,
financial incentives,
the issue of **masks**,
the **suicide** connection,
related **crimes**

and many more aspects of this **orchestrated deception** and
global assault on humanity.

Of special importance is reference to the 229-page Harrison
Research Report titled [Covid-19 – Pandemic. Profit. Fallout](#),
which was sent – on May 25, 2020 – to **The Select Committee on
Covid-19**. The author has yet to receive a response.

The contents of this letter is of great importance
internationally, as well as to Australians.

The ongoing crimes against humanity are global and affect every living being on this planet. We are all in this together and, together, we must stand up and speak out for truth and for freedom.

***The Concerned Lawyers Network** is an Australian network of lawyers who are concerned about how laws are improperly used against Australians.*

The website concernedlawyersnetwork.net was created to share with the public the letter sent to the State and Federal Governments of Australia and accompanying exhibits / references.

No part of the site constitutes any specific legal advice for any particular person and their particular circumstances; such persons should seek their own individual personalised and tailored advice concerning their situation from a suitably qualified and experienced lawyer
