I found Sasha Latypova through a colleague in Europe. The day I met Sasha at her villa in California, the skies were overcast, which correlated with the subject matter of the interview. Now retired, Sasha had had a very successful career as an independent contractor designing clinical trials for the largest pharmaceutical companies in the world.

During our interview, I was stunned by some of the conclusions Sasha had reached regarding which government agencies actually authorized the vaccines. Through the COVID crisis, Sasha teamed up with a paralegal in Pennsylvania named Katherine Watt who conducted very thorough research that unearthed the legal framework through which the vaccines were approved and deployed. You can find her work [here](#).

Katherine Watt discovered that the covid vaccines were authorized not by the FDA but by the US Department of Defense as countermeasure prototype demonstrations. This revelation ties in with a prior BIG PICTURE interview with Brook Jackson, who managed a piece of the Pfizer clinical trials for a Pfizer contractor, found fraud, and was fired for bringing the irregularities to the attention of her superiors. When Brook later sued the government for purchasing vaccines that were not properly FDA approved, the government's response was that they were not FDA approved but approved instead by the DOD.

Coincidentally, Katherine Watt uncovered the existence of a joint Health and Human Services and Department of Defense program to combat bioterrorism or natural outbreaks through the rapid deployment of "countermeasure prototype demonstrations." This is a shockingly broad term that basically means "anything whipped up by the military that they think may be of use." In other words, they are rapidly whipped-up secret recipe military vaccines that require no approval other than the say so of the HHS secretary and his belief they may be of benefit. No testing needed, no clinical trials required.

The general public is now the unwitting guinea pig. This means all the COVID vaccines everyone has been receiving were actually produced by the military under a martial law legal structure and the public is being unwittingly injected with not just experimental vaccines, but with military prototypes that were never intended to receive any FDA approval.

This strange scenario explains why the regulators (FDA) behaved so strangely and why no one was ever punished for the rushed and fraudulently conducted clinical trials.

Operation Warp Speed was a military operation complete with sophisticated propaganda strategies. These psychological propaganda programs targeted films like my Planet Lockdown film. The public was encouraged to take the vaccines by psychological warfare units of the military. Yet it is illegal under the 1878 Posse Comitatus Act for the military to operate on US soil.

As if that news were not troubling enough, Katherine and Sasha learned that anyone who examines the contents of the vaccines vials can be legally punished for doing so. Pharmacists and doctors warned that the vials are property of the US government, so having the vials tested would expose them to criminal charges.

I must ask: If these are simply experimental vaccinations for a novel flu, why on god's green earth are all these unusual measures needed? This is quite suspicious, and, in my experience, suspicious people tend to act suspiciously . . . and are up to something they don't want you to know . . .

Please join me and learn just how Sasha discovered what she did, the logic she followed, and where it led her. I think you will understand why the truth disturbed her enough to come forward and share it with the world. She is committed to getting this information so that we cannot be fooled the next time a "pandemic" is announced.
