Climate engineering researcher Dane Wigington has dedicated his life to warning about the increasing dangers to the planet of climate engineering. So, when the Biden Administration came out this week and said it was considering “blocking the sun to limit global warming,” it was a total lie to cover up the fact blocking the sun has been going on for decades because of the well-established science called geoengineering.

The technology used to block the sun is, in fact, destroying the Earth.

The signs include increasingly weird weather events such as oversized hail to toxic wildfires you are seeing in the news right now.

So, why is the Biden Administration wanting to get geoengineering in the news when the Lying Legacy Media (LLM)

lied about this climate destroyer by omission for years?

Wigington explains,

*“Certainly this elephant in the sky is becoming all but impossible to hide. Perhaps in their mind they can paint some picture that this is a benevolent planetary saving act. Perhaps they think they can program populations into accepting it. I don’t think that is going to happen.*

*“I think populations are finally starting to realize that those in power are not here to help them. . . . We have forever chemicals in every single drop of rain that falls anywhere on the planet at this point, and that is peer-reviewed science. There is an additional 40 million to 60 million tons of known highly toxic particles being sprayed in the skies all over the world for various agendas and objectives and it’s not being disclosed by anyone. There is an illegal federal gag order for all National Weather Service and NOAA employees.*

*“There is an unbelievably massive elephant in this equation that nobody is willing to acknowledge. . . . All of us have extremely high levels of contaminants in us that Geoengineeringwatch.org has done with hair, blood and urine and that are packed with these metals they are spraying in the sky.*

*“This is a fight for life right here and right now. All other concerns and problems are mute if we don’t deal with this.*

*“The elite have been saying they want the global population cut down to 500 million people. That means 7.5 billion have to go away.*

*“It should be very clear that what is happening in our skies is NOT benevolent. It’s malevolent—period.”*

In closing, Wigington says,

*“The unfolding damage that climate engineering is a huge part of . . . climate engineering has derailed the planet’s ability to respond to the damage done. . . . Climate engineering destroys the ozone layer . . . That single component is an extinction level event. If there is no ozone layer, there is no terrestrial life on earth.*

*“We are perilously close to that right now. . . . If we can stop geoengineering, we can buy time for the planet. . . . The atmosphere is being used as a physics lab with no consideration for the consequences.”*

There is much more in the 37-minute interview.
