

Dr. Andrew Kaufman with Dr. Sam Bailey: “Hunting for Viruses”

[Dr. Andrew Kaufman with Dr. Sam Bailey: “Hunting for Viruses”](#)

Topics include:

- The lack of scientific proof for the existence of viruses that cause disease
- The massive confusion in the field of virology – where they simply make things up to fit a narrative
- The work of Dr. Stefan Lanka
- How genetic sequencing is done
- relevance of Koch’s postulates
- alleged “variants”
