Dr Joseph Yi, AKA "StreetMD" asked Drs Bailey, Cowan and Kaufman to respond to Drs Malone, McCullough and Cole's claims that SARS-CoV-2 has been isolated and shown to exist. Boom!

The video they are responding to can be watched here:
<https://www.bitchute.com/video/czsMZfuaHffp/>

[Truth Comes to Light editor's note:](#)

This discussion includes:

- the unscientific foundations of virology
- what do people like Dr. Malone mean when they insist a virus has been isolated?
- have any viruses ever been isolated?
- what about measles, influenza, chicken pox, herpes, zika and what we've been told about "contagion"?
- what about 5G and EMF fields as cause of disease as well as an instrument of surveillance and control?
- what about the recent snake venom controversy?
- the covid agenda as a distraction from the more important issue of technocratic, globalist control of everything and everyone
- how to prepare for the future
