In this interview, social justice and anti-GMO advocate Vandana Shiva, Ph.D., discusses her book, “Oneness Vs. the 1%: Shattering Illusions, Seeding Freedom,” which she co-wrote with her son, in which she argues that the ultra-wealthy elite are responsible for a majority of the environmental, financial and health crises currently facing us.

- In “Oneness Vs. the 1%: Shattering Illusions, Seeding Freedom,” Vandana Shiva, Ph.D., argues that the ultra-wealthy elite are responsible for a majority of the environmental, financial and health crises currently facing us
- Bill Gates’ wealth and “philanthropic” efforts, for example, have allowed him to gain unprecedented influence over agriculture and global health policies that threaten food security and human health
- The COVID-19 pandemic has catalyzed a massive transfer of wealth to the rich
- While global lockdowns have decimated small businesses and left many to struggle financially, wealthy globalists have amassed immense profits, and lockdowns have prevented public mobilization against tech and retail giants
- To facilitate the transfer of wealth, the elite lobby for

the elimination of labor and environmental laws, as well as human and farmer's rights

With a new epilogue about Bill Gates's global agenda and how we can resist the billionaires' war on life

Widespread poverty and malnutrition, an alarming refugee crisis, social unrest, and economic polarization have become our lived reality as the top 1% of the world's seven-billion-plus population pushes the planet—and all its people—to the social and ecological brink.

In *Oneness vs. the 1%*, Vandana Shiva takes on the Billionaires

Club of Gates, Buffet, and Zuckerberg, as well as other modern empires whose blindness to the rights of people, and to the destructive impact of their construct of linear progress, have wrought havoc across the world. Their single-minded pursuit of profit has undemocratically enforced uniformity and monocultures, division and separation, monopolies and external control—over finance, food, energy, information, healthcare, and even relationships.

Basing her analysis on explosive, little-known facts, Shiva exposes the 1%'s model of philanthrocapitalism, which is about deploying unaccountable money to bypass democratic structures, derail diversity, and impose totalitarian ideas based on One Science, One Agriculture, and One History. She calls for the “resurgence of real knowledge, real intelligence, real wealth, real work, real well-being,” so that people can reclaim their right to: Live Free. Think Free. Breathe Free. Eat Free.
