Dr. Rima Laibow, M.D. is a graduate of Albert Einstein College of Medicine (1970) who believes passionately in the right of Americans to choose their own health paths. She has practiced drug-free, natural medicine for 50 years by seeking the underlying cause of every illness and ailment and treating that root cause.

In 2002 one of her patients from a very rich family told her about detailed plans from her circles for a new world order (NWO). This also included the reduction of the world population by 90%, because they would be “useless eaters”. Based on these stories, Dr. Laibow began to do research on these topics.

In 2004 she founded the “Natural Solutions Foundation” together with her late husband, an organization dedicated to health through food and freedom.

In this episode of ICIC, Dr. Reiner Fuellmich and co-host

Attorney Dagmar Schön talk with Dr. Rima Laibow, a psychiatrist and specialist in child & adolescent psychiatry in the US, about the untrustworthy and demonstrably long-planned agenda of a psychopathic minority of self-proclaimed elites who stop at no crime to achieve their inhuman goals.

In their dangerous megalomania to decimate humanity by 95% and to keep the rest under their totalitarian control like cattle and to abuse them as they see fit, they do not even stop at the cruelest violence against the weakest members of our society, the children.

If it's possible to indoctrinate all children worldwide using mind control and MK-Ultra programs with early sexualization, uprooting and identity confusion, which they incorporate into all areas of our daily lives, and to poison them by means of so-called vaccinations and in the worst case by gene-altering, experimental injections to damage their DNA, it will be easy in the future to manipulate and control humanity and to eradicate the qualities that make up being human, such as love, compassion, friendship, social connectedness.

Thus, the "useless eaters" who, in their view, burden the planet to which they have issued a sole claim, should disappear. Useful slaves, without human characteristics, created in laboratories in the best case, shall be available for them, without feelings and without polluting the planet unnecessarily and wasting resources.

Dr. Laibow speaks clearly using plain words to expose it all, and bring into the light of day this terrible plan which the power-hungry and their henchmen, who she calls "monsters", have subtly forged under the guise of private organizations like the WHO, EU, UN, Unicef and Unesco etc., which were founded especially for this purpose. It does not gloss over anything, and points out the impending dangers to our existence and that of our children and our children's children.

We as sentient beings, as people with strength, creativity, courage and a sense of justice must no longer remain silent in the hope that 'it' will eventually pass and we will be able to live a normal life again, because it was not normal before either, only that it could not be perceived due to the brainwashing and drug treatments. But now that we have seen it clearly, what has been done to us just in the last three years and they are waiting in the wings again with panic and torture, we have to stand up and protectively put ourselves in front of our children.

Dr. Laibow advises everyone to declare loud and clear, "Don't you dare lay a hand on our children, and don't you dare try to control our lives!"

This is the language that they understand and it is the power of community and cohesion that we need to hunt down these 'monsters' and hold them accountable.
