[Dr. Tom Cowan: A Close Look at Dr. Judy Mikovits' Work Where She Attempts to Explain 'the Science' of SARS-CoV-2](#)

[Truth Comes to Light](#) editor's note:

Dr. Tom Cowan has recently created a series of videos where he takes a close look at what some leaders in the anti-covid-vax arena are presenting as science. Dr. Cowan's videos can be found at his [Rumble](#) and [BitChute](#) channels.

For those of you who listen to a lot of alternative "anti-vax" presentations about the origins of SARS-CoV-2 and end up feeling that you've just listened to a lot of faux-science gobbledygook, you're not alone.

Below, Truth Comes to Light has clipped two key segments from the longer video where Dr. Cowan looks into Dr. Judy Mikovits' presentations and papers related to SARS-CoV-2. Dr. Tom Cowan's full video is also found below.

[Tom Cowan on Incomprehensible Medical 'Science'](#) (1.5 mins)

Excerpt:

“Science has become the enterprise of people using words and concepts to make things, that everybody otherwise would understand, basically incomprehensible.”

“There are some basic ways that all of us – men, women, human beings – understand the world. It’s very clear and simple to us. And if we applied that same thinking to subjects in science and biology and medicine I think it would be fairly easy for us to find our way and to see what’s true and what isn’t true.

The problem has become that so-called scientists, especially virologists and medical doctors, have made the whole thing so confusing that most people seem to lose their bearings as far as understanding just the usual, common sense, logical, rational way of thinking and end up believing something that they wouldn’t possibly believe if they really understood the issues.”
