Recently, a website addressed UNNWO.org has been making the rounds online. UNNWO stands for United Nations New World Order and the website has become the center of a debate questioning the site's legitimacy. Is the site real? Or fake?

The UNNWO website's "About" section reads:

*The United Nations New World Order Project is a global, high-level initiative founded in 2008 to advance a new economic paradigm, a new political order, and more broadly, a new world order for humankind, which achieves the UN's Global Goals for Sustainable Development by 2030, and the happiness, well-being, and freedom of all life on Earth by 2050.*

In this report we examine if the site is real and legitimate, and if the site has any connections to the United Nations.
