Excerpts:

...We have to fight for our children, but not a normal fight. It's something we have to do with freedom and with peace... If there is only little evidence that the useless masks are danger for our childs we have to react...

...There is no deadly disease. There is nothing to protect. But they are going to harm our children. Please stay united. United against the cruelty of our politicians and our governments all around the world.

David Ike said it's fascism. Robert F. Kennedy, Jr. also

said it's fascism. And me, as a normal MD, as an ORL doctor, also tell you this is fascism.

This has nothing, absolutely nothing, to do with medicine, with infection, with viruses. They possibly kill our children. Stand up and fight for our children.

...We are many. They are few. We are the people of the world...

...This coronavirus is a myth. It's a fairy tale...

...It's hard to believe that this is the biggest, the greatest lie ever told to the people of the world.

Please awake. Protect our children..."
