The [first global protest](#) was held in January. Thanks to the folks at Stop 5G International for organizing and promoting this second global protest as well.

From [Stop 5G International](#):

Please post your planned events on this group: Balcony Protests Zoom Calls, Online or Balcony Music Events, Letters to Green NGO's for Earth Day, Legal Actions etc. Gladly also post online materials to share – songs, poetry, art, posters, animals saying, “We do not consent”, anything as long as it is peaceful! Let your heart lead the way out of this insanity and into a world we would be proud to leave to our children. Kindly also send your events to [\[email protected\]](#) and mark in subject heading April 25th/26th Online Protest. This will then be displayed on the stop 5G International website: <https://www.stop5ginternational.org>
