Global 5G Protest APRIL 25 and 26 | Please Send Details of Your Event to "Stop 5G International"

Global 5G Protest APRIL 25 and 26 – Please Send Details of Your Event to "Stop 5G International"

by <u>BN Frank</u> April 19, 2020

The <u>first global protest</u> was held in January. Thanks to the folks at Stop 5G International for organizing and promoting this second global protest as well.

From Stop 5G International:

Please post your planned events on this group: Balcony Protests Zoom Calls, Online or Balcony Music Events, Letters to Green NGO's for Earth Day, Legal Actions etc. Gladly also post online materials to share — songs, poetry, art, posters, animals saying, "We do not consent", anything as long as it is peaceful! Let your heart lead the way out of this insanity and into a world we would be proud to leave to our children. Kindly also send your events to and mark in subject heading April 25th/26th Online Protest. This will then be displayed on the stop 5G International website: <u>https://www.stop5ginternational.org</u>

Opposition to 5G continues to increase in the U.S. and worldwide because of the many threats it poses to biological health (see 1, 2, 3. 4. 5), cybersecurity (see 1, 2),

```
environmental health (see \underline{1}, \underline{2}. \underline{3}. \underline{4}), privacy (see \underline{1}. \underline{2}), safety, (see \underline{1}, \underline{2}) and humanity (see \underline{1}, \underline{2}. \underline{3}).
```

Although <u>many cities and countries have already banned</u> <u>5G</u> and/or <u>issued moratoriums</u> against installation, the "Race to 5G" continues in the U.S. and elsewhere.

Activist Post reports regularly about 5G and other sources of unsafe technology. For more information, visit our <u>archives</u> and the following websites.
