[Peter Breggin](#) is known as the “conscience of psychiatry”.

He is a long-time critic of shock treatment and psychiatric

medication. Instead, he advocates psychotherapy, education, empathy, and love.

In our conversation, which is centred around his new book [*COVID-19 and the Global Predators: We Are the Prey*](#), Peter discusses

- who the global predators are;
- why they are preying on us;
- what their end game is;
- and how we can defend ourselves against them.

He is a great man with a great mind, and is a great inspiration to me.
