*Lock down all towns  
Everybody slow down  
Give ‘em everything you have  
Mask up, vax up  
Get your body trashed up  
Better do what they ask*

*It’s alright, okay  
Sorry, but ya can’t pray  
Gotta keep the church doors closed  
No superstitions  
A saint politician  
Will tell ya what you need to know*

*Citizen fools  
And brand new rules  
Make everyone a hero now*

*So keep your distance  
No resistance  
Only do what you're allowed*

*Cash that check  
Go dance in the wreck  
But just don't speak your mind  
Get your facts from the paid contracts  
'Cause never would they tell a lie*

*They don't know me  
And they don't own me*

*Oh God help us all  
Look what we've become  
Oh God help us all  
And fix what we have done*

*See no evil  
Bow to the needle  
Didn't we turn out great?  
Sick is the new health  
Poor is the new wealth  
Truth is whatever they say*

*Expert lectures  
Media protectors  
Tell me who to love and hate  
Jail in the network  
Hail to the Zuck-burg  
Head down, just behave*

*Liberty, freedom, angels, demons  
Someone's in control  
(Well) no way, no how  
I wouldn't say it too loud  
Don't you know they're on patrol?*

*Need more likes*

*Post up, let's fight  
There's no way that you're wrong  
Gott listen to the science  
'Cause it's all about compliance  
You agree or you're gone*

*They don't know me  
And they don't own me*

*Oh God help us all  
Look what we've become  
Oh God help us all  
And fix what we have done*

*Sell my info  
Hacked in, don't know  
Show me what I need to buy  
Sex consumption, no corruption  
Just as advertised*

*You've been labeled  
And I've enabled  
Better apologize  
Propaganda  
Racist slander  
Time to organize*

*Shot, bang, who's next?  
Brain dead, useless  
Show it on the TV screen  
Tell me who to vote for  
Gotta to start a new war  
Wouldn't want to live in peace*

*Divide and Conquer  
Weak, not stronger  
Everybody know your place  
Do it now, won't hurt  
Dig into your own dirt*

*Virtue found it's grave*

*They don't know me  
And they don't own me*

*Oh God help us all  
Look what we've become  
Oh God help us all  
And fix what we have done*

*Incite violence  
Enforce silence  
Mainstream message  
Won't you guide us?  
You know what is best  
For our own good*

*Anti-this and anti-that  
Cancel this and cancel that  
Take it to the streets  
And the neighborhoods*

*Worship actors  
Food and drugs  
Brand yourself  
Give them your blood  
Don't believe your eyes  
Don't look around*

*Fake news, rumors,  
Ok boomer  
Ignorance will stain our future  
Will ya make it through  
Or burn it down?*

*Oh God!  
Oh God!  
Help us all  
Oh God!*

*Help us all*

*Oh God!*

*Oh God!*

*Help us all*

*Oh God!*

*Help us all*

*Oh God!*

*Oh God!*

*Help us all*

*Oh God!*

*Help us all*
