by Greg Paul

The Government has failed us.

The economy is dead.

Our liberties have been stripped.

We gave away our power to so-called government and we allowed it to create the world we see around us.

This world we have now... it only exists because we didn't want to take responsibility for ourselves and our world.

I propose that we, the people of the land known as Great Britain, TAKE responsibility starting today.

I propose that we wipe the slate clean and start over.

I propose that we cancel government... entirely.

I propose that we gather 1m/10m/66m? people of Britain and form a new nation of sovereign Britons... a nation by and for living, breathing men and women of the living earth.

I propose that we form and record this nation – Britonia – pursuant to the United Nations Declaration on the Rights of Indigenous Peoples.

Not because we need the authority of the United Nations to be able to act, but because the United Kingdom Government is a signatory to that document, and consequently will be bound to recognise our lawful claim by default.

I propose that we, the people of the land known as Great Britain, reclaim the allodial title to all lands of Great Britain from the Monarch, having as we do a prior claim, not only as original peoples, but as men and women of the earth. I propose that we remake our society from the ashes of this plague.

I am calling David Icke, Brian Rose, Brian Gerrish and every other open-hearted lover of mankind and of freedom to step forward and lead this new nation into a golden age.

It doesn't need to be complicated... to fix the world... we just need to draw a line and start over.

You can make this happen by signing the Nation of Britonia's Declaration of Natural Rights.

It's kinda like a petition – except we're not begging someone else to do it for us... we're doing it for ourselves.

If you are of Brittonic ancestry, and/or own land forming part of the land known as Great Britain, and/or live on the land known as Great Britain...

Sign the Declaration <http://britonia.land>
