Legalizing Infanticide

In March 2022, California introduced a bill [\[AB2223\]](#) that “decriminalizes neglecting newborns to death.” By September 27, 2022, California democratic Governor Newsom approved the bill into law. By forming the “Future of Abortion Council,” the governor effectively turned California into a “sanctuary state” for the procedure of legalizing infanticide. [Maryland](#) and [Colorado](#) are doing the same.

For years, pro-life advocates have argued there is no moral difference between ending a child’s life days before birth or days after birth. California’s pro-abortion legislators now seemingly agree,” – [Jonathan Keller, President of California Family Council.](#)

What could possibly merit the approved killing of infants, up to 28 days after birth, under the guise of “reproductive health?”

The answer is multifaceted. On one level, the government devalues humans as part of a transition to non-gender or [Transgender politics](#). [See [The It Generation](#) for more information.] On another level, more organs can be harvested if the fetus is allowed to be born. On another level, infanticide is part of a ritual that goes back thousands of years.

Harvesting In the Open

A lot of money can be made by harvesting and selling body parts. The most lucrative parts are the ones you cannot live without. Some say you [can sell your living body](#) for millions of dollars. But, is it worth it if you can't enjoy it? New laws and campaigns to dehumanize are hoping to change minds and ultimately behavior. According to one source, in 2021, insulin, prolactin, amniotic fluid and other fluids and tissues are priced to sell for around \$43,000 with [total body worth around \\$46 million. Here are what some human organs are valued at](#) on the Black Market:

- Reproductive organs: \$445,000
- Kidneys: \$93,000-\$200,000
- Liver: \$157,000-\$474,000
- Heart: \$119,000
- Lung: \$116,000
- Pancreas: \$46,000
- Corneas: \$8-30,000
- Bone marrow: \$3-43,000 (legally)
- Eggs: \$5-\$50,000
- Coronary artery: \$1525
- Small intestine: \$2519
- Gallbladder : \$1200
- Skulls with Teeth: \$1200
- Scalp: \$600
- Spleen: \$508
- Stomach: \$500
- Shoulder: \$500
- Blood: \$337 per pint
- Skin: \$12 per sq. in.

Around the world, the laws are changing when it comes to organ donation. From England to Australia and most places in between, unless you “opt-out,” it is now [assumed you will be an organ donor upon your death](#). You must specifically withdraw from the program if you disagree. However, if there is no

informed consent, how do people know what they didn't sign up for? Does this amount to stealing body parts, or grave robbing in the open?

'Spare Parts' Scandals

A sordid history of harvesting bodies for spare parts were recorded as *scandals* only because they were caught. In 2001, an investigation of a leading [children's hospital in Britain illegally harvested hearts, brains, eyes and other organs](#) from thousands of dead children without the consent of their parents. The collection of organs for medical research is common in many countries, including the United States. From the [Fetal Tissue Retention Scandals](#) to the [Los Angeles Fetal Disposal Scandal](#) (16,000 aborted fetuses in a California home) to the 2001 [Alder Hey Organs Scandal](#) (over 100K body parts and fetuses, see [report](#)), fetuses are considered to be 'spare parts' for profit. The NIH, Congress, hospitals, doctors, universities, biomedical research, Planned Parenthood, and pharmaceutical companies are all complicit in the procurement of disposable fetuses, less than 28 weeks old, for research, and without parental consent.

On a separate but related note, in 2020, founder of NY Teachers for Choice, Michael Kane, in a letter to the mayor, suggested that the [government was stealing teacher and student DNA under the guise of COVID testing](#). The harvesting of DNA by state government is a blatant invasion of bodily privacy, [said Kane](#) and others. And yet, DNA harvesting continued for two years and still continues, without informed consent.

In March of 2020, during the early pandemic, the [World Health Organization issued guidelines](#) for infection management of a dead body under the 'COVID' context. Autopsies could only be performed under special conditions and strict guidelines. In essence, the guidance made autopsies prohibitory for most hospitals. [Onerous precautions](#) were made for deceased bodies. Ironically, today [people who are COVID-positive are viable](#)

[organ donors](#), while [unvaccinated people are being denied transplants](#). No one talks about the [high rate of false-positive tests using the PCR test](#).

If no one thinks twice about giving away their DNA using an [inaccurate PCR test](#), then it isn't a stretch to think that [Living Vital Organ Donation](#), with consent, would allow for tailored [killing by harvesting](#). But why is the preferred market for bodies and parts those of fetuses and newborns? [Scientists say fetal tissue is essential for vaccines](#) and developing treatments.

A Long History of Child Sacrifice

Moloch, Molech, Molekh, or Molek, representing Hebrew מלך mlk, ([translated directly into king](#)) is either the name of a god and the name of a particular kind of sacrifice associated historically with that god in cultures throughout the Middle East, including but not limited to the Jewish, Egyptian, Canaanite, Phoenician and related cultures in North Africa and the Levant.

The Bible describes Moloch, or Molech, as being the androgyne god to whom child sacrifices had been made in a shrine outside the city of Jerusalem. Moloch as the Canaanite deity, Ba'al-Hadad or Hadad. Hadad was considered the king of the gods by the ancient Canaanites. In the [Biblical account](#), children are said to have been sacrificed or "passed through the fire" to Moloch at a shrine outside the city walls of Jerusalem called Topheth, in the valley of Ben-Hinnom.

The prophet [Jeremiah 19:5](#). In [2 Kings 17](#), ...worshiped all the host of heaven and served xBaal. 17 yAnd they burned their sons and their daughters as offerings¹ and used zdivination and aomens and bsold themselves to do evil in the sight of the LORD, provoking him to anger. 18

In [Jerimemiah Chapter 19:4](#), it was the Judeans, not

the Caananites, who burned their sons and daughters:

4. because they have forsaken Me, and have estranged this place, and have offered in it unto other gods, whom neither they nor their fathers have known, nor the kings of Judah; and have filled this place with the blood of innocents; 5 and have built the high places of Baal, to burn their sons in the fire for burnt-offerings unto Baal; which I commanded not, nor spoke it, neither came it into My mind. {P} 6

Therefore, behold, the days come, saith the LORD, that this place shall no more be called Topheth, nor the valley of the son of Hinnom, but the valley of slaughter;

It appears that Ba'al worship does not discriminate among religions when it comes to child sacrifice. *Any young human will do.* Judeo-Christians were complicit then, [just as they are complicit now](#). Worshipping Ba'al means sacrificing human life, never your own, just the innocent newly born, or first born, so that you might have prosperity here on earth. There are at least [25 cultures known to have practiced human sacrifice](#).

Just as the Sodomites celebrated same-sex orgies, bestiality, human-animal hybrids (chimeras), and the practice of rape, to acquire supernatural powers so, too, is bestiality [again on the rise in some western cultures](#). The Bible spoke of cannibalism during sieges (cf. [Lev 26:29](#); [Deut 28:53-57](#); [Jer 19:9](#); [Ezek 5:10](#)). Additionally, three other passages record that cannibalism happened in Israel's history ([2 Kgs 6:24-31](#); [Lam 2:20](#); [4:10](#)). Has anything really changed? Are we unknowingly [eating fellow humans via injection](#)? During the Eucharist, why does the Catholic priest insist upon eating the body and drinking the blood of Christ? Do we accept the answer of [living sacrifice?](#)

The Androgyne Baphomet, a goat-headed demigod, was worshiped by elite groups during the 13th and 14th centuries. The

Egyptians worshipped this god as *Osiris* who ruled over the underworld in the constellation Orion. Americans worship the mighty dollar, which is [being made obsolete](#).

Understanding written history, one might ask if [Planned Parenthood](#) represents the new face of Ba'al worship. Likewise, the focus on sexual transformation, or Transhumanism, represents the dawn of [an old religion made new again](#). Some might say that we have come full circle from the the ancient city of Babylon of the 7th and 6th centuries B.C.E., and its [false religion](#) and [tower of Babel](#), which ended badly. But what if that Bible story was written for this time? Is *The Rapture* meant to usher in a *New World Order*, a *Great Reset*.

Does a network of medical professionals profit from the unborn and partly born? Are politicians, who change laws to [legalize infanticide](#) also limiting freedom for everyone? Are these [the pillars of the Great Reset](#)?

Are aborted fetuses that are later incinerated an offering to Moloch/Ba'al? Does this dynamic continue under the exact same hopes as it had for centuries: the hope for a rich and easy life? Has [Secular Humanism](#) become today's Baalism?

Whatever it is, it is the fervor of a spiritual battle that must be faced by each of us, where we stand. Do we allow the harvesting of human children to continue, or do we take back our humanity and divinity? Human souls of future generations will grow up in a society of our making. As history proves, it is not what happens to us, but how we respond that makes the difference for what comes next.
