

How Many People Are the Vaccines Killing?

[How Many People Are the Vaccines Killing?](#)

by [Dr. Vernon Coleman](#)

January 2021

No one knows how many people the vaccines are killing – or how many they will kill.

But although I haven't seen the mainstream media mention most of these deaths, people have already died or been injured after being given the vaccine:

1) A 41-year-old Portuguese mother of two who worked in paediatrics died at a hospital in Porto just two days after being vaccinated against covid-19

[Portuguese health worker 41 dies...](#)

2) Norway is investigating the deaths of two nursing home residents who died after being vaccinated against covid-19

[Norway investigating death of two people who...](#)

3) Chinese health experts call to suspend the use of mRNA-based covid-19 vaccines following the deaths of 23 elderly people in Norway.

[Chinese health experts call to suspend Pfizer's mRNA vaccine...](#)

4) In Florida, U.S., a doctor died after suffering a stroke after receiving a covid-19 vaccination.

[Death of Florida Doctor](#)

5) A 32-year-old medical doctor suffered seizures and was paralysed after receiving the covid-19 vaccine.

[Doctor is paralyzed after...](#)

6) Fifty-five people have died in the U.S. after receiving covid-19 vaccines.

[55 people have died in US after receiving covid-19 vaccines](#)

7) A 46-year-old healthcare worker dies 24 hours after receiving the covid-19 vaccine but government says death is not related to the job

[A 46-year-old healthcare worker...](#)

8) German specialists are looking into the deaths of 10 people who died after being vaccinated against covid-19

[German specialists probing 10 deaths of people vaccinated against covid-19](#)

9) Norway warns frail patients over 80 of vaccine risks after deaths

[Norway warns....](#)

10) Norway investigates 23 deaths in frail elderly patients after vaccination

[Norway investigates...](#)

11) Doctors in California call for urgent halt of moderna vaccines after many fall sick

[Doctors in California...](#)

12) Two people in India die after receiving the covid jab

[Two people die...](#)

13) Coronavirus vaccine put on hold as volunteer suffers serious adverse reaction

[Coronavirus vaccine put on hold...](#)

14) California pause some covid vaccinations after reactions

[California pause some...](#)

15) Thousands of covid vaccine injuries and 13 U.S. deaths reported

[Thousands of covid...](#)

16) Nursing home had zero covid deaths then it vaccinates...

[Nursing home had zero deaths...](#)

17) Baseball legend dies of 'undisclosed cause' 18 days after receiving covid vaccine

[Baseball legend dies...](#)

18) Woman injured by vaccine (Warning: disturbing video)

[Woman injured...](#)

19) Mother seriously injured by covid vaccine (Warning disturbing video).

[Mother seriously injured](#)

Those are just some of the possible deaths and injuries that have followed vaccination.

I have no doubt that the authorities will claim that these deaths were coincidental.

And let us remember if a patient dies within 28 days of being tested positive for coronavirus (and the test doesn't mean that the patient even has the disease since most tests are false positives) then the death will be listed as a covid-19 death and the patient will be said to have died 'with' covid-19. So by the same token, it is perfectly reasonable to say that if a patient dies or falls ill within 28 days of being vaccinated then the death or illness was related to the covid-19 vaccine.

Will the mainstream media ever start recording these deaths or illnesses? Or are journalists going to continue to promote the official government line – and to deny, distort or suppress the truth?

How many people have to die before the media wakes up?

NOTE: According to the National Vaccine Information Centre in the US, 13 people had died of the covid-19 vaccine by the 30th December 2020.

Covid-19 Vaccine – Possible Vaccine Side Effects

The pro-vaxxers like to tell you that vaccines are perfectly safe and perfectly effective. Even when they wouldn't be considered safe enough to use as oven cleaner, the fanatics enthuse about them. Young people and those who know little about medicine or science, talk about vaccines with reverence because they've been indoctrinated into believing the pro-vaccine lies.

And the pro-vaxxers are lying, of course.

Vaccines cause a lot of illness and quite a few deaths and they don't always do what they're supposed to do. Governments around the world have paid out many billions of dollars to patients who have been made ill by vaccines – or to the relatives of patients who were killed by a vaccine.

There are, for example, grave doubts about what the covid-19 vaccine actually does. Since the vaccine is a new type of vaccine and is being given before the usual tests and observations have been completed no one knows what will happen to the people who have the stuff injected into an arm.

What side effects will there be? How many will die?

Well, I don't know and nor does anyone else.

What if a woman is pregnant when she has the vaccine or gets pregnant after being given the vaccine? The vaccine isn't supposed to be given to pregnant women but not all pregnancies are planned.

Will the vaccine interfere with essential life-saving drugs? Many elderly patients already take a number of prescribed drugs. Will the vaccine interfere with them? No one knows. The covid-19 vaccine is the biggest experiment in history. And, unlike a proper clinical trial, it is largely unregulated. As with all vaccines most of the problems which develop will

never be reported or recognised.

It is estimated that in the U.S., only 1 in 100 vaccine side effects is reported.

The best we have is a working list of possible adverse event outcomes which the FDA has published in the US. ([Here is the link to the draft working list](#))

Since I believe everyone is entitled to know what side effects there could be with a heavily promoted vaccine, I'm going to read you the official list of possible side effects. This is, remember, not my list but a draft list compiled by the FDA – the Food and Drug Administration in the US.

Guillain-Barre syndrome

Acute disseminated encephalomyelitis

Transverse myelitis

Encephalitis

Myelitis

Encephalomyelitis

Meningoencephalitis

Meningitis

Encephalopathy

Convulsions

Seizures

Stroke

Narcolepsy

Cataplexy

Anaphylaxis

Acute myocardial infarction (heart attack)

Myocarditis

Pericarditis

Autoimmune disease

Death

Pregnancy, Birth outcomes

Other acute demyelinating diseases

Non anaphylactic allergy reactions

Thrombocytopenia
Disseminated intravascular coagulation
Venous thromboembolism
Arthritis
Arthralgia
Joint pain
Kawasaki disease
Multisystem inflammatory syndrome in children
Vaccine enhanced disease

You aren't necessarily going to get all of those or even any of them if you have the vaccine. But those are the possible side effects that the FDA has listed. They're all unpleasant, most of them very serious and you can't get more serious than death.

And if you are mad enough to have the vaccine then you and your doctor should keep a look out for the symptoms of all the diseases on the FDA's list.

Your government won't tell you about these dangers – they don't believe in fully informed consent as far as vaccines are concerned.

Indeed, most governments are now doing everything they can to ensure that all criticisms of vaccines are banned. Depending on where you live it is, or soon will be, illegal even to mention that vaccines might not always work or might make you ill.

Finally, if your government really cared about you they would conduct a very simple, cheap trial.

They would keep a note of all the health problems affecting 20,000 patients who had the vaccine and compare that list with a list of all the health problems affecting 20,000 patients who didn't have the vaccine in the same period. They make the comparisons every 3, 6 and 12 months.

Of course, they'd have to find some honest doctors to oversee the trial because it would be very easy to fiddle.

But it would give some very interesting results so I doubt if they'll be doing it.
