

# If You Were a Pregnant Mother and Smiling Doctors Came to You With Murder on Their Minds

## [If You Were a Pregnant Mother and Smiling Doctors Came to You With Murder on Their Minds](#)

by [Jon Rappoport](#), [No More Fake News](#)

October 26, 2021

I've been writing a [series of articles](#) demonstrating that much medical research rests on the murder of infants.

In particular, vaccine research.

Several key cell lines are derived from fetal tissue. And doctors obtain that tissue by removing fetuses from pregnant mothers; the fetuses are alive; the doctors then kill the fetuses by cutting out their kidneys or their brains or hearts.

How were (and are) these pregnant mothers approached by doctors?

Are the mothers provided with anything resembling informed consent? Do the mothers sign agreements to keep quiet about what the doctors are going to do to their babies? How many of the mothers have no idea what is about to happen? Are the mothers paid?

There are mothers out there who can speak up. They should.

If YOU were a pregnant mother, what would you say if a doctor

told you: "We understand you don't want your baby. Fine. We want to plan your abortion and schedule it. We'll be there. You can contribute to medical research by allowing us to remove your infant from your womb, fully intact, and alive. Then we will take your infant's kidneys, to obtain tissue for research on vaccines. By removing your baby's kidneys, we will be killing him or her. He or she will be on the table, breathing, heart beating, and we will kill him or her."

What would you say?

How many mothers in the past hundred years do you think were informed in this way—after which they gave their consent? Zero?

THIS is what my series of current articles is about.

The fetal cell line called HEK 293 has been used to test COVID vaccines. The available evidence, and obvious physiological factors, point to the murder of a female baby to harvest her tissue for HEK 293.

I've emphasized, and will continue to emphasize, that this horrific serial murder of infants surely demands all people of faith reject the vaccine.

But of course, I'm not just talking about the 5 billion people in the world who claim to be religious. I'm talking about everybody. Everybody with a shred of conscience has a compelling and urgent reason to turn away from the vaccine. A vaccine which, by the way, is demonstrably destructive.

The doctors who have performed these abortions and carried out these murders have many allies who are protecting them. Medical, political, media, and religious allies, who tap dance, lie, obfuscate, deny, confuse the uninformed.

In my opinion, and in the opinion of others, the internal advice at pharmaceutical companies [to stay away from talking](#)

[about fetal tissue research](#) comes down to wanting to hide murder.

That's the secret at the bottom of the putrid "science."

So when you hear government officials attacking vaccine refusers and piling blame on them, and saying the unvaccinated are keeping the world from solving the "pandemic"; when you hear the US Attorney General ordering his FBI troops to investigate parents who come into school board meetings and protest, among other issues, a vaccine mandate targeting their children; when you hear suggestions that these parents might be "domestic terrorists"; KNOW WHERE THE TRUE HORRIFIC CRIME IS TO BE FOUND.

See something; say something. Keep saying it.
