People say hindsight is 20/20. So what happened in 2020?

The following is an update of an April 2020 blog. Sometimes it is easier to look back to see a pattern, rather than connecting the dots as they are coalescing.

### **Recapitulation to a Reset**

What if 100-year pandemics occurred in 1720 (Plague), 1820, (Cholera), 1920 (Spanish Flu), and 2020 (SARS-Covid), as backdrops to resets of world government, economy, currency, electronic communications, religion, and social interactions? Would you be able to see a transition from freedom to slavery as it played out?

What if the loss of freedoms happened under a narrative of “safety” or “unity?”

*I would love to be able to bring back our country into a great form of unity. Without a major event where people pull together, that's hard to do. But I would like to do it without that major event because usually that major event is not a good thing. – [President Trump, 2018 State of the Union Address](#)*

During COVID, leaders of every nation in the world ended their political divisions to unanimously agree on new draconian dictates against its people by going to war against an

invisible “cold virus,” patented as [a chimera with SARS \(SARS-Cov-2\)](#).

In a show of unprecedented uniformity, state leaders agreed to mandate lockdowns, “social distancing” and “masking,” under threat of *coronaviruses* (COVID-19), expressed as a cold. As of May 2022, there was [still no origin for SARS-CoV-2](#) in the literature.

The coordinated response of mandated closures of small businesses in the U.S. for the [once-in-a-hundred “novel” Coronavirus- that never was](#) followed a [federal 100-year plan](#).

Had the people been duped into allowing their leaders to reset the world to usher in a Global Oligarchy as a digital reality made up of an [Internet of Bodies](#)?

The [Boiling Frog Principle](#) is a metaphor for the inability of people to react to significant changes that occur gradually.

In the future, countries will continue to work together under the United Nations [Office for Outer Space Affairs](#). Yes, these countries have been working together since 1957 for the next phase of the program of the New World. See the [Committee on the Peaceful Use of Outer Space](#), and [Goals for 2030](#).

### **Predictive Programming**

The Pandemic may have been revealed to millions of people, decades before under Predictive Programming.

The faked “novel virus” may have had its debut in the 1981 Dean Koontz’ “novel,” *The Eyes of Darkness*, which strangely predicted an outbreak of a [“Wuhan-400 virus” from a bioweapons lab](#) outside the city of Wuhan, China. The toilet paper panic, [social distancing](#), and the coming bio-chip ID implant were first predicted in the [1993 movie, Demolition Man](#), with Sylvester Stallone and Sandra Bullock.

In the U.S., state governors acted in unison when they “locked

down” citizens to accept insurance money under the 2018 [Pandemic Emergency Financing Facility \(PEF\)](#). The PEF kicked into action *under the event of a Flu (New or novel influenza A virus, or an influenza A virus, including viruses belonging to the family Coronaviridae)*.

All stay-at-home orders were purely voluntary. NY Governor Andrew Cuomo disclosed this message [in this April 27, 2020 public announcement](#):

*Everything we are doing is basically voluntary, on behalf of people... The state government, local government, federal government can't really... DOESN'T HAVE THE POWER TO ENFORCE STAY-AT-HOME ORDERS. If 19 million people said I'm going out today, they would go out.*

The Governors appeared to be in lock-step with the [Rockefeller National Covid-19 Testing Action Plan](#), which directs how states can reopen under new testing measures.

The lockdown of the states was first test marketed during the [United Nations Event 201 Simulation](#), with modeled predictions of infections and deaths, control of information via a centralized source, and a major economic downturn. See [the Highlights Reel](#). And the [Epilogue of the simulation exercise \(at the 32:55 minute mark\) where the outcome is summarized](#):

*Sixty-five million people died in the first 18 months. The outbreak was small at first... but then it started spreading in densely crowded and impoverished neighborhoods of megacities. From that point on, the spread of the disease was explosive...*

Going forward, new [CDC guidelines](#) are already in place for grade schools, including more frequent and thorough sanitation, temperature checks, mask wearing, social distancing, fewer students per classroom, lunch at the desk, and so forth. While students did eventually return to the

classroom, the future is digital. School will consist of [online learning](#).

Just as U.S. Governors did not have authority to mandate anything in 2020, they also have [no authority to order online learning](#). Just as the COVID pandemic began in China, so, too, does [digital online learning](#).

### **Silence Is Acquiescence**

As the pandemic advanced, people agreed to give up the freedom to assemble and “earn a living.”

Fear has a way of shutting down critical thinking. With contradictory information, people are easily confused and duped. They submit and self-sensor. They fail to question authority or do their own research.

[Digital IDs are here](#), in the cell phone and wearables. Going forward, they will be embedded under the skin for *increased security* (and increased surveillance)?

It has already happened in the food system. America’s farmers submitted to lawmakers who ordered the mass culling of cattle, chickens, and hogs to force [food shortages that lead to rationing](#).

*We were informed yesterday that all our sold hog loads were cancelled for no less than a week. Then a few hours later we got a call that the United States government was buying one million hogs and they were just going to kill them. They are intentionally causing a panic. They killed one million chickens a few days ago. I’ve already been sent a message that the beef industry was also informed that the cows will be killed also. This is not a joke. They’re causing a food shortage purposely.*

*You have very few days to get meat before the price goes through the roof. If our Farms are chosen for the intentional cull we can’t even have them butchered to not*

*have to waste the meat. This is not good! – Eddie H. Illinois farmer. – April 29, 2020*

## **Digital Cattle**

Today, May 2024, politicians are preparing to force independent ranchers to digitize/chip their cattle and bison for interstate transport. Governments want to [make electronic ID official](#).

How is digital meat different from real meat?

Is [the digital twin](#) (human) the same as digital cattle?

Is the digital system [the core of a global reset](#), to poll data for a social credit system?

Will social credit use digital Universal Basic Income (UBI), via a central-bank, programmable currency, in a digital economy? Is data being “harvested” from cattle for compliance with a digital *Gulag* system?

These are questions being bypassed by the “experts.” From digital meat to digital people, the world is transitioning from a pandemic to a *virtual reality*, by silent consent.

Will people allow [drones to enter their airspace to monitor and track](#) them? How many have already agreed to be monitored by Smart™ technology wired into their homes, TVs, via TeleHealth, wearables, and cell phones?

## **Built On A Theory**

The 100-year pandemic cycle is built on a theory.

Without proof, people readily accepted [The Germ Theory](#) as the cause of all *disease*, and of COVID. They failed to ask the questions:

- Is a theory, fact?
- Does an invisible germ cause disease, as Louis Pasteur

once claimed, or?

- Is *the germ* the effect of disease, based on the decline of the immune system?
- Is rotting garbage created by flies? Or are flies attracted to rotting garbage?

Why hasn't the director of NIAID, Dr. Anthony Fauci, reminded people that [Pasteur recanted the Germ Theory when he understood that true immunity came from a healthy terrain](#), not a germ?

[The Terrain Theory](#) describes *the germ* as part of your innate immune system that works with you; not against you. Within the Terrain model, viruses do not exist. Thus, they cannot cause damage unless they are engineered in a lab, dubbed a "virus," patented, and injected into the body. This means that "viruses" do not cross the species barrier, from bats, to pigs, to humans, as advertised; not unless they break the skin barrier, through a needle.

Within *the Terrain*, viruses are really [exosomes secreted by damaged cells](#) for repair. Thus, a virus is not alive and cannot be transmitted through the air. A flu or cold is the body's cleansing reaction, a purging of toxins from cells, directed by the body's innate immune system. A cold or flu is the body "getting well," not getting sick.

### **What Is Freedom?**

*Freedom is not a gift bestowed upon us by other men, but a right that belongs to us by the laws of God and nature. – Benjamin Franklin*

A global reset is taking place under illegal government dictates. True freedom is being redefined as *new freedom*.

However, freedom is not granted by governments and rights are not gifts from government. Just like the immune system is innate, rights and freedoms are inborn. Participating in

marches or rallies against government is a form of begging government for rights that already exist. Put another way: a rally is a virus (external), while Freedom is an exosome (internal).

Freedom is expressed through each individual as choice.

Freedom is declining to do something that is morally objectionable.

Freedom is listening to your inner truth barometer when it may not be popular, then acting on it.

Freedom is expression and movement without restriction.

Freedom is claiming responsibility for your body as your property.

The question each of us must ask is, am I responsible for my health, or do I give up responsibility to an authority? Am I a slave to a master, or am I master of my choices?

Do I remain silent or do I question a global authority?
