

In the Beginning Was the End

It's just getting interesting here on planet earth. Now's when Truth breaks through and Gaia shrugs to bring the point home.

What groundless, truthless and ruthless insanity we're witnessing. Think of the fear based mindset behind almost every action, the craving for safety and security and self. Besides being an imposed false goalpost in the human psyche, people don't see the power of death as their friend and companion.

Humanity is so caught in linear duality it's disgusting. Their hearts know better.

This Yahweh and Co.'s creepy hierarchical control plan is almost fizzled out now. Hence the death throes and psychopathic vibes people are whipped around by. If they haven't done the self work they'll be thrown under the bus. You can't do anything about that except individually, but it all works for good.

Everything is energy, everything recycles, nothing is ever lost. The play out of this evil contagion is just a cycle. For some "reason" perhaps we're simply here to experience, witness and learn from it. We can do what we can do, or not do what we're not supposed to do. The majesty of choice is always there and our indomitable infinite spirits are just fine and always will be.

Happy class time and do enjoy your farming to whatever degree

in whatever manner if you've started to pay attention – absolutely nothing better than being in and working with truth and nature – speak to it and listen. It's our best teacher. We have so much clutter blocking our true higher mind and things that keep us from truly seeing. That's the challenge.

So was the end baked into the beginning? In a linear contained sense, for sure. If you go for the programmed prophecies and other predictive programming bullshit you already know the ending. After all, you're bringing it on by swallowing this swill. That's your choice. Trouble is, I and others have to share this planet with ignorant, programmable idiots like that.

I'm sick of it.

So if you, yes you, don't snap out of it, we all suffer. How's that for violence and violating others' rights? And partial wake ups are bullshit. If you're not willing to go all the way you and others like you are part of the problem. That's why this information avalanche is in place and all this ego-bolstering so called knowledge. It feeds the self serving beast. The real one. The false you, the false us. And the problem rolls on.

Get free. Let the paradigms and cherished beliefs crumble.

That's where we'll find our way. It's already here and always has been. True awakening is a destructive process. Then we'll find our footing in real, raw truth.

Is that something to fear?

Love, Zen
