Ole Dammegard's website: [Light on Conspiracies](#)

Ole Dammegard was born in Denmark and raised in Sweden, grew up believing he lived in a free and democratic society. As he started to investigate the political assassinations of John F. Kennedy and Swedish Prime Minister Olof Palme, he noticed there were some very strange and glaring similarities in these two cases. Since that time, Ole has investigated many other political assassinations, deaths of musicians and false flag events, and has shown the common thread behind them all: the New World Order Agenda. Ole's aim is to spread this information and to promote a stance of "no-fear", of peace and recovery from the atrocities and trauma that we have been subjected to for so many years. We are many, they are SO few. Shine the light on these conspiracies, get involved and transcend this evil agenda so we can get on with this amazing and beautiful life.
