

Is The Sky Falling Or Is Just Weather Geoengineering “Killing Us Lightly”?

[Is The Sky Falling Or Is Just Weather Geoengineering “Killing Us Lightly”?](#)

by [Catherine J. Frompovich](#), [Activist Post](#)

September 26, 2018

Are some folks, especially those in the media, starting to wake up about what's happening with the weather? In the SE part of Pennsylvania, *Philadelphia and surrounding counties, in particular*, the Spring and Summer of 2018 have been nothing short of thinking about building an ark, as we have had torrential floods weekly, if not many times daily!

The wet weather here is so bad, no one can disregard it anymore. Some folks now have taken to making snide remarks such as, “Can Google send us some sunshine.”

The all-news radio station in this area is KYW 1060 and their reporter Lynne Adkins featured a story about the weather and how it is affecting people. Here in the metro Philadelphia area, we have nothing but rain, more rain and torrential rains on a daily basis. Flash flooding is the normal daily routine for drivers' commutes, with many water rescues having to take place. Rivers and streams flood all over the area! It's gotten so bad that radio announcers are now making snide remarks about the weather and verbally 'taking on' weather forecasters about a lack of sunshine.

It's NOT the normal weather patterns locals remember for most of their lives!

Lynne Adkins KYW News [9-25-18 Rain article](#) featured a comment from a healthcare professional, which is extremely “right on” and probably will be responsible for people waking up to who’s messing with the weather because this just isn’t normal.

According to part of Ms. Adkins’ report,

*“Lowered energy, low motivation, just overall way more sluggish than their typical baseline, more irritable. And then when you combine that with the fact that sometimes people don’t physically feel well, **the weather can aggravate pain or medical ailments**,” said Kim Morrison, clinical supervisor at Main Line Health Women’s Emotional Wellness Center.*

“Morrison says we’re getting more miserable each day.”

My Comment About That

Daily flooding rains result from *scalar clouds* parked overhead for days at a time in order to drop all that rain. Those clouds have tremendous Electromagnetic Frequencies (EMFs) and probably Radiofrequencies (RFs) in them possibly created and held in place by HAARP. Here’s a map of global HAARP facilities known to date.

Those facilities are capable of sending billions of microwatt energy into the ionosphere to heat it up and create weather patterns – *drought, flooding rains or [nucleated ice and snow](#)* – anywhere on the planet! There is some speculation HAARP also can produce and/or activate earthquakes! *What a weather-making machine!*

Can weather geoengineering be responsible for California's ongoing six-year weather problems and much of the earth's forests burning, plus the "Noah-like weather" in Pennsylvania and surrounding areas?

There are [hundreds of U.S. patents to control weather](#), which are owned by the U.S. military and government.

The process by which "man-made weather," aka Solar Radiation Management (SRM), is deployed is through the use of retrofitted airplanes for aerosol spraying "chemtrails" that rain down on earth, plant life and wildlife, all sorts of nanoparticles, toxins, and other horrendous chemicals. Some assays have found

- Aluminum (known to cause tinnitus)
- Arsenic
- Barium salts
- Cadmium s/b cadmium
- Desiccated human blood cells
- Ethylene dibromide
- Lead
- Magnesium
- Mercury
- Mold spores
- Mycoplasma
- Polymer fibers
- Radio cesium
- Sharp titanium shards
- Stenothium s/b Strontium
- Submicron particles

- Unidentified living bacteria
- Uranium
- And many other toxins

~~~

Inside a retrofitted chemtrail spray plane

One of the “ingredients” indicated to be a mix in the

spray, *proven by scientific assays*, is **toxic coal** power plant [ash waste](#).

There are many 'partner' components and operations involved in weather geoengineering, one being man-made clouds called "**scalar**" clouds that help make the new weather patterns possible ([here](#) and [here](#)).

Here are some of the more popular scalar clouds appearing over Pennsylvania:

or another type, which I call "blanket clouds": one continuous *dark gray cloud* that extends for miles forming a blanket in the sky over the entire area for days on end preventing sunlight from reaching earth.

Because of these man-made clouds, **between 25 and 30 percent less sunlight hits the earth**. How does that affect people with Seasonal Affective Disorder [1] and the growing of food crops?

This website explains something you probably don't know: U.S. Air Force to own the weather!

## **Weather As A Force Multiplier: Owning The Weather In 2025**

If you want to know more about weather geoengineering, you can access my [Archives at Activist Post](#) and scroll through hundreds of articles to find what you may want to know.

Finally, Dane Wigington, the chief researcher at [Geoengineering Watch.org](http://GeoengineeringWatch.org) is planning a free "Climate Engineering Awareness" event the evening of October 20, 2018 in Redding, California. If you would like to attend, please see the following information.

**Illegal Climate Engineering Operations Are Further Fueling Record Wildfires**  
**UPCOMING CLIMATE ENGINEERING AWARENESS EVENT IN NORTHERN CALIFORNIA**  
Free Public Event, Saturday, October 20th, 2018, Holiday Inn, Redding, California

A major Northern California climate engineering free public awareness and call to action event that had been scheduled for July 28th, 2018, was canceled due to the eruption of catastrophic wildfires in the US west. Record wildfires and their relationship to climate engineering / geoengineering was a primary subject the July 28th event intended to address. The two venues that were originally slated for this event (first the Shasta County Fairgrounds and then the Holiday Inn, Redding) were both given up to facilitate fire fighting crews and efforts. This event has now been rescheduled and will occur on Saturday evening, October 20th, in the Holiday Inn ballroom, Redding, California.

### Hacking The Planet: The Catastrophic Consequences Of Climate Engineering

- What is climate engineering / geoengineering / solar radiation management?
- How is climate engineering further fueling record wildfires?
- Why are climate engineering operations being carried out?
- Who is behind these operations? Which countries and governments are involved?
- What are the overall consequences of the ongoing climate engineering operations?
- What are the geopolitical / conflict ramifications as a direct result of climate engineering?
- How can we expose and stop these lethal programs?

#### SCHEDULE FOR THE EVENT:

- Event doors will open at 5pm on Saturday, October 20th.
- From 6 p.m. to 7:15 p.m, Dane Wigington, lead researcher for [GeoengineeringWatch.org](http://GeoengineeringWatch.org) will conduct a PowerPoint presentation, titled "Hacking The Planet: The Catastrophic Consequences Of Climate Engineering". This presentation will provide up-to-the-minute front-line data to highlight the dire impacts of the ongoing climate engineering operations, the threat climate engineering / geoengineering poses to the planet, to us, and to the entire web of life.
- From 7:30 p.m. to 9:00 p.m, there will be an extensive Q and A and call to action session. Specific plans for pending public action will be discussed in detail. The ongoing legal efforts to expose and stop geoengineering will be covered along with specific instructions on how each of us can help to stop the climate engineering destruction.
- From 9:00pm to 10:30 p.m. the ballroom will remain open to answer any additional questions and for those in attendance to connect.

Dane is the lead researcher and administrator for [GeoengineeringWatch.org](http://GeoengineeringWatch.org), the largest and most visited climate engineering website / data archive in the world (over 31,000,000 visitors and counting). Covert global climate engineering programs are wreaking havoc with Earth's life support systems and human health (due to the highly toxic fallout from climate engineering).

Again, this critically important climate engineering awareness event is free to the public as are the climate engineering awareness and educational materials available at the event. These materials include a re-usable [GeoengineeringWatch.org](http://GeoengineeringWatch.org) canvas tote bag, commercial DVDs (with multiple presentations / menu options), color glossy 20 page booklets, 2 sided color glossy flyers, and more. For additional information on this upcoming event, please check the home page of [GeoengineeringWatch.org](http://GeoengineeringWatch.org)

**For questions please contact [admin@geoengineeringwatch.org](mailto:admin@geoengineeringwatch.org)**
