Janus Bifrons ~ Who was the two-faced Greco-Roman god?

The irony is that people not only know their rulers and society overall are two-faced, they expect it.

Whether consciously or subconsciously we all know lying and deception are inherent to the matrix that's been foisted upon us.

Another irony is that even in the definition of Janus there are two very different versions as to whom this mythological character really was.

Who was Janus?

We see this two-faced image a lot in our lives. Many know it dates back to Greek and Roman mythology. However, there's much more to this character than meets the eye.

We'll start with the lighter version:

Janus means "archway" in Latin. Janus was the Roman god of gateways and beginnings, often depicted as having two faces looking in opposite directions. The month of January is named for him.

Interesting. Sounds pretty innocuous. Wikipedia also mentions:

As a god of motion he looks after passages, causes the startings of actions, presides on all beginnings and since movement and change are bivalent, he has a double nature, symbolized in his two headed image.

And more:

His two faces (originally, one was always bearded, one clean-shaven; later both bearded) originally represented the [sun](#) and the [moon](#). He was usually depicted with a key.

Janus head is a popular phrase for deception, that is, when action does not match speech.

OK. I can do that.

"Two-faced" apparently came from this archetype emblazoned into our collective subconscious.

There's a lot of deceit and cover up in the world, to the extent most people are quite leery of each other. Very unfortunate, when trust would go so much further but the world's been corrupted and corruption is glorified.

And this "permission" to deceive to get ahead and even subjugate others is apparently too good to pass up for some.

A quick perusal of governmental, corporate, legal, financial and social leadership and behavior around the world is all the confirmation you need.

Keys, Janus and the Pope

Janus with key and cock

Note Janus was depicted with a key. It turns out there's a lot to this. Remember he's the god of doors.

There's another god, a goddess, who also bore a key.

Remember, Catholicism teaches ancient paganism with Christian names and terms. This is another perfect illustration of that.

Follow me:

About 378, the Pope fell heir to the keys that were the symbols of two well-known Pagan divinities at Rome. Janus bore a key, and Cybele bore a key; and these are the two keys that the Pope emblazons on his arms as the ensigns of his spiritual authority. (and flag)

*Cybele...with fish god mitre the pope wears,
and key in hand ~ goddess worship anyone?*

What was this power of the keys?

It was these two gods (Janus and Cybele) that had the power of heaven and earth.

Whoa...that's a lotta power, heaven and earth. As you can see, all this ties in with the Isis-Samiramis et al lineage of goddess worship that goes down through millennia and in which today's Illuminati still revel.

Look at early American architecture and symbolism from the goddesses on pedestals and domes around Washington DC to the Freemasonic gift called the Statue of Liberty.

It's all essentially the same old goddess.

In the US she's called "Columbia". Ring a bell?

*Compare the headgear of the two above images.
In this picture the Pope carries the bent cross of the
antiChrist.*

Yup, the government is fully based on Freemasonic paganism to the core. All for occult power as they honor the forces they worship and tap into. More on that in a minute.

But this Vatican connection and switchover from these pagan key gods to supposed “keys of the kingdom” that somehow links to Peter whom they claim to be the first Vicar of Christ of which the Pope is spiritually descended is absolutely typical historical revisionism.

The pagan Roman priesthood (before the birth of Jesus Christ) had a sovereign pontiff who held the keys.

Pagan keys of Janus and Cybele

The goddess Cybele was also worshiped as Cardea, and the College of Cardinals was named for her.

She bore a key like Janus, which opened the gates of the

invisible world.

*In Greek mythology Cybele holds **the key to Earth**, shutting her up in winter and opening her again in the spring.*

*Similarly, Janus opens **the door of the sky** and releases the dawn.*

The term Cardinal is derived from Cardo, a hinge. Janus, whose key the Pope bears, was the god of doors and hinges...

It was only in the second century before the Christian era that the worship of Cybele under that name was introduced to Rome; but the same goddess, under the name of Cardea, with the "power of the key," was worshipped in Rome, along with Janus, ages before. [Source](#)

Now the "Flip Side" of Janus

Janus was no small potato. As you research more and more into him, he connects a lot of dots and represents serious forces.

He presides over the concrete and abstract beginnings of the world, such as religion and the gods themselves; he too holds the access to Heaven and other gods: this is the reason why men must invoke him first, regardless of the god to whom they want to pray or placate.

He is the initiator of the human life, of new historical ages,

and economical enterprises: in myth he first minted coins and the first coin of the libral series, bears his effigy on one face. [Source](#)

Who was this guy?

He's apparently a gateway, for economic power and societal change.

But is this a real entity?

Someone they invoke?

And/or a blueprint for chaos?

Texe Marrs calls it:

The Illuminati secret formula for world revolution and deceit. This is how and why Satan is making such incredible progress. The Janus Factor is Satan's hidden method. The two-faced Roman god Janus was known as "Keeper of the Keys" and as "Interpreter of the Mysteries." Throughout history, Janus operatives ~ Darwin, Hegel, Freud, Marx, Lenin, Obama, and others ~ have successfully employed the Janus method to psychically and culturally churn global events and overturn all standards of morality and human dignity. [Source](#)

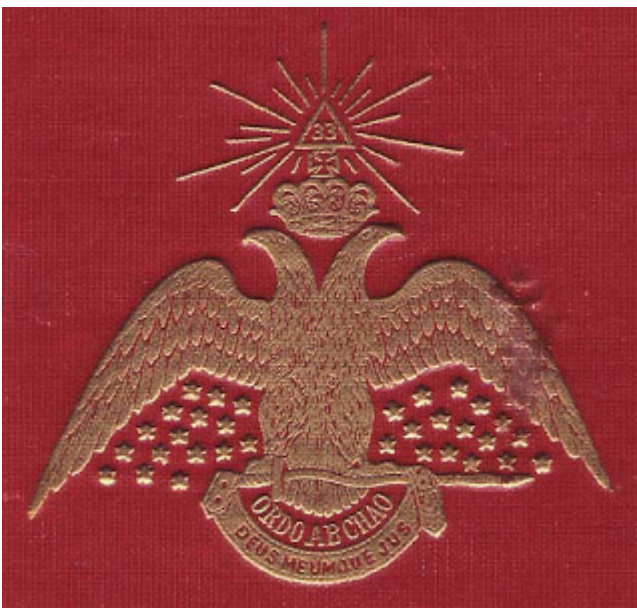

In other words, by playing with right v. wrong and reversing social norms to bring society into chaos, or utilizing the use of opposites with the Hegelian dialectic where a planned action provokes a similarly planned re-action, and other techniques, you can do a lot of manipulative damage.

As they have. Another dialectical symbol found throughout history, signifying the same concept as Janus is the two headed eagle, or phoenix.

The

eagle of the Holy Roman Empire

Double headed eagle on Albert Pikes Freemasonry book 'Morals and Dogma' with Order Out of Chaos slogan.

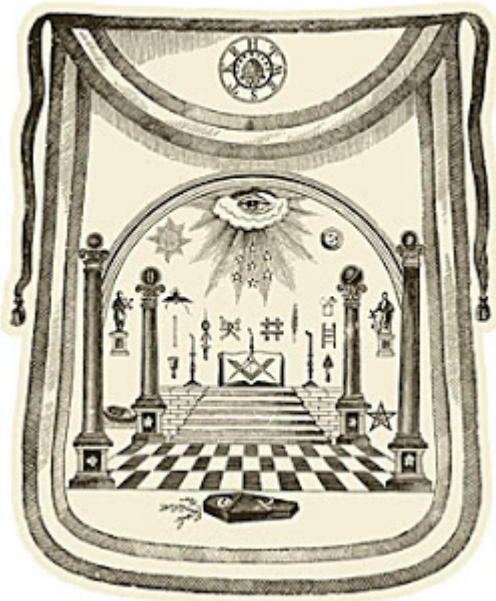

Enter Freemasonry

Freemasonry is all about opposites and duality, and playing one side against another as some sort of occult ritualistic exercise, supposedly to evoke the illuminated man and world.

It's basically what the motto on their two-headed eagle crest says, create chaos to bring about the new world order essentially.

Most involved in lower level Freemasonry don't know what the heck they're involved in, like lower level anythings.

But the commitment to their agenda gets extremely serious at higher levels and human life takes a back seat to the "illuminated" program of using these techniques and powers for very evil ends.

Freemasonic symbolism is rife with duality..sun-moon, black-white, twin pillars, male-female etc.

Janus-Bifrons is his full name

The Illuminati are all about levels of disguise via carefully constructed lies, half-truths and diversions. Just as their doctrines of opposites seem to have this new-agey air of esoteric truth, these entities they literally worship in some form or another always have a cover.

What they are leaving out in the name Janus in all the popularized pictures and references to this guy is that Janus was actually known as **Janus-Bifrons**, and when you research THAT name it takes us to a whole different place.

In [demonology](#) **Bifrons** was a [demon](#), Earl of [Hell](#), with six legions of [demons](#) (twenty-six for other authors) under his command.

He teaches sciences and arts, the virtues of the gems and woods, herbs, and changes corpses from their original grave into other places, sometimes putting [magick](#) lights on the graves that seem candles. He appears as a monster, but then changes his shape into that of a man.

The origin of the name is, without any doubt, the [Roman god Bifrons](#) (Janus).

Other spellings: Bifrovs, Bifröus.

The Queen of England's royal Masonic goat on parade.

Oh dear! How did this photo of the future King of England with his “pet goat” end up here?

Bifrons was also one the names given to the baphomet allegedly worshipped by the Knights Templar, and which description was as a statue with two heads surely inspired in the Roman god **Bifrons**, one looking towards the left to tell the past, and the other looking towards the right to tell the future, all this by means of the power of a demon (there were other suppositions on the figure of the [baphomet](#)). [Source](#)

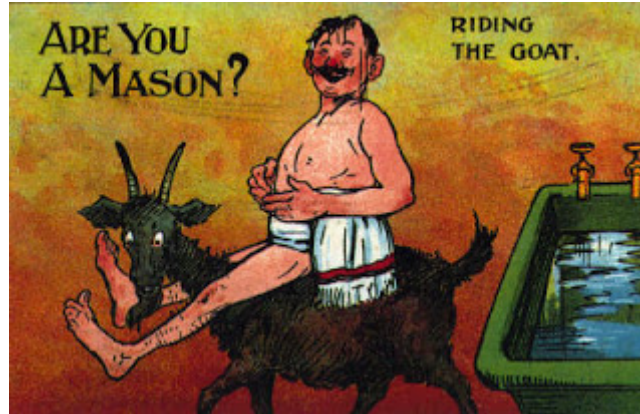

It is also said the Janus-Bifrons appeared as a monster and then changed his appearance to that of a man.

In other words, he was (is) a shape-shifter.

A computer game demon named Bifrons (Janus' real name) Reptilian. Hmmm...

AND BAPHOMET?

The Knights Templar were the precursors to today's Freemasons. Now we see how this all ties in together. Looks like this could be the same nasty dude in a few different disguises. Typical.

When this statue was unveiled of George Washington, the first President of the United States, the people could not understand why their esteemed George was depicted in such a strange, half-naked, pose. Look at the classic image of the Satanic symbol of "Baphomet", however, and all becomes clear

Now Baphomet actually takes us straight to witchcraft and the horned goat.

Which also ties in with Freemasonry. Any way you connect it, we're down in the bowels of the occult now.

And as we know, the Illuminati are drenched in witchcraft however you slice it or want to call it.

✘ *The melding of Janus and Cybele.*

Speaking of keys, when it comes to evoking spirits as the Satanic Illuminati do, there's a lot of black magick involved

that has very specific procedures. And many of these wicked controllers are adepts in this to increase their power and obtain favors.

The Lesser Key of Solomon contains detailed descriptions of spirits and the conjurations needed to invoke and oblige them to do the will of the conjurer (referred to as the "exorcist"). It details the protective signs and rituals to be performed, the actions necessary to prevent the spirits from gaining control, the preparations prior to the invocations, and instructions on how to make the necessary instruments for the execution of these rituals. Things to steer clear of. Janus was considered the most important god of the Greco-Roman pantheon...even above Zeus (Jupiter). Yes, he was above the recognized head god ~ a very Luciferian concept.

Janus Global Communications logo.

So when you see references to Janus it's nothing innocent, believe me.

Pleasant. By the way the dove at the top represents the goddess Columbia aka Isis aka Semiramis et all...right back to the other key holder, his contemporary Cybele...

Janus brought up to date

Janus is a very popular name and logo. Again, freemasonry rules the corporate world in addition to politics, finances, etc. They speak to each other in logos, and attempt to evoke spiritual power from their use.

The elite bloodlines and their minions have been into this for millennia. Take a look at an occult Rothschild party in the early part of last century:

Baroness Marie-Hélène de Rothschild sporting golden calf baphomet, and Baron Alexis de Redé as two-faced Janus at a Rothschild soiree..

Janus was also a secret government psyop group. Again, nothing really constructive going on, one might say:

The super-secret Janus Group utilizes very highly-trained [psychic assassins](#), who employ such techniques as the green and red marble systems, as well as the White Glove method.

In order to psychically kill enemies of the Illuminati, the Director of Janus (an Illuminatus) wields more political clout than the hierarchy of the National Security Agency.

He was an intimate friend of the late Roy Cohn ~ a director of Permindex, the group which masterminded the assassination of President John Kennedy. [Source](#)

This one even boasts the Illuminati pyramid.

And finally...

Speaks for itself.

The lying, masked manipulative media in a Janus nutshell...

Conclusion

I hope this little foray into this age old deity has been “illuminating”.

It continues to amaze me how it always traces back to an innate lust for power and control by these elite Illuminati minions right through the ages.

They preserve what they consider to be their “inside edge” within their bloodline, and this can be traced back to the dawn of this civilization...and probably the one before.

[ED: From the ultimate deception of 911. The harbinger of change bringing the world to a darker place, serving the desires of the very dark beings on this planet. I repeat, Bush's sitting with that classroom of children was Masonic symbolism and dark ritual at its most bizarre, in-your-face, in plain sight variety. The goat book, the innocent children, their chant. It all harks back to Janus!]

It's important to decode their language, be it through symbolism, mythology, alchemical practices or societal

engineering and programming.

ONCE YOU'RE ON TO IT,

IT LOSES ITS POWER.

The simple and ignorant will pass on and suffer the consequences.

Keep on learning, and most of all....keep wondering.
