# LET THE KIDS BREATHE

## Statewide Sit Out & Zoom Out

This is a call for all parents/guardians in MA to pull the kids out of school, and let teachers/administrators know that they won't be returning until all covid-19 restrictions are lifted.

### WHY?

- Per the Stanford Study, masks are not effective, but harmful.
- Masks are not required while seated in restaurants.
- Mask wearing affects mental health and social cues.
- Mask wearing can cause dental issues/gum disease

# Take the masks off!

**Pull the kids out of school until the restrictions are lifted!**

Let The Kids Breathe and [the smile project](https://www.thesmileproject.global) is a national initiative supported by Cape Cod Against Medical Mandates

**Protest Calls:**

**When: Monday May 24, 2021 7:45 AM – 9:45 AM**

**Where: Nauset School Administration, 78 Eldridge Park Way, Orleans, MA**

Stand with Nauset parents in support of bodily autonomy, parental choice, and medical freedom in our schools.

**When: Tuesday May 25, 2021 at 8 AM (not 10 AM as previously posted)**

**Where: Department of Elementary and Secondary Education, 75 Pleasant St, Malden, MA**

Stand with all Massachusetts students. The 'Let The Kids Breathe' main demonstration will take place at the Department of Elementary and Secondary Education in Malden because this is where the statewide "orders" for schools are handed down. Organizers are calling for a boycott of schools until all restrictions are lifted. They are suggesting people bring noisemakers (buckets and sticks).

---

---

Making kids wear masks is a form of child abuse. Masks inhibit the intake of oxygen which children need for their developing brains. They force people to re-breathe the carbon dioxide that they exhale. There is little evidence that masks help to prevent the spread of viruses, and plenty of evidence that wearing them is physically and mentally harmful.

Further, children have now come to think it is normal for everyone to wear a mask, and they are being deprived of the ability to understand other people by reading the expressions on their faces. Parents have been so intimidated by "pandemic" fear that they have essentially allowed the state to abuse their children.

Children are not able to understand what is being done to them, and parents, who are in a position to understand, have failed to protest health mandates being blatantly used for political, not health, reasons.

On May 13, 2021 medical tyrant [Anthony Fauci said](#) that “children too young to be vaccinated will still have to wear masks when they are indoors and around others, even if older kids and adults are free to take off face protection once they are fully vaccinated. “

Adults have been held hostage with mask and social distancing rules in order to force them to get the covid injection. Now our children are being held hostage for the same reason. Children are at very low risk of harm from whatever the illness is that has been called covid 19. Adverse effects so far reported among those age 16 and up who have gotten the jab make it a certainty that if the injections are forced on children, they will cause more and much worse harm than the illness.

According to neurologist [Dr. Margarite Griesz-Brisson](#), “*For children and adolescents, masks are an absolute no-no. Children and adolescents have an extremely active and adaptive immune system and they need a constant interaction with the microbiome of the Earth. Their brain is also incredibly active, as it has so much to learn. The child’s brain, or the youth’s brain is thirsting for oxygen. The more metabolically active the organ is, the more oxygen it requires. In children and adolescents every organ is metabolically active. To deprive a child’s or an adolescent’s brain from oxygen, or to restrict it in any way, is not only dangerous to their health, it is absolutely criminal. Oxygen deficiency inhibits the development of the brain, and the damage that has taken place as a result CANNOT be reversed. The child needs the brain to learn, and the brain needs oxygen to function. We don’t need a clinical study for that. This is simple, indisputable physiology. Conscious and purposely*

*induced oxygen deficiency is an absolutely deliberate health hazard, and an absolute medical contraindication. “*

According to psychologist [Jack Dresser](#), “Children are closely attentive to both the facial expressions and voice intonations of their caretakers and surrounding adults. Deprivation or attenuation of these psychologically essential cues constitutes child neglect, which can affect brain development and be more psychologically damaging than overt abuse.”

[Emily Burns](#), founder of **the smile project** (banner above), had this to say about our taking any further orders from a tyrannical public health establishment:

*“As John Ioannidis has said, ‘medicine has now become the enemy of health.’ In order to remedy this, public health officials must resume their rightful position as public servants who provide information and guidance, rather than dictates and punishments. Restoring this balance will restore trust in public health, and improve health outcomes. In the current modality, where un-elected public health officials have been given god-like power and prestige, there is no incentive for them to provide accurate information. They do not guide, they rule. Rulers don’t give information, they give commands. To the extent they give information, it is to justify their commands. This is exactly how the CDC has behaved since March. In the absence of the ability to compel, you must inform. Thus, in order to get the CDC and other public health organizations to begin accurately informing us, we must strip them of their power to command us. The moment this is done, we will all have better information, and a public health apparatus that serves us—not the other way around.”*

[Attached](#) is a [downloadable word file] plea for sanity on masks in schools written by a mother of three school-age children in Tempe, Arizona, addressed to the school administrators enforcing the abusive masking policy common to

most public schools across America. The arguments in this letter apply equally to all students forced to wear masks in schools on Cape Cod. The argument is simple: parents need to stand up to protect their children.

###

Update: Mask rules are due to be lifted in Massachusetts on May 29, 2021, but not in schools. The updated order of [May 17, 2021](#) is that public school students and adults must continue to wear masks indoors.
