***Excerpts from the Press Release regarding the upcoming May 15, 2021 protests:***

On Saturday the 15th May 2021, The World-Wide Demonstration will return, bigger and better than ever before. In more than 40 countries around the world, people will march for Freedom, Peace, and Human Rights.

With strengthened resolve from our first World-Wide Rally for Freedom on the 20th of March 2021, we will once again reclaim our fundamental rights, and take a stand against excessive Coronavirus restriction measures.

**The Objectives of Our Protest**

Lockdowns and border closures have taken lives to increased suicide rates, and destroyed Livelihoods, causing financial ruin.

No population should ever again be subjected to Ubiquitous Public Incarceration.

Excessive Coronavirus Restrictions measures must come to an end, and all state of emergency declarations enabling these measures must be repealed.

Tyrannical suppression of dissenting voices must be stopped, and peaceful citizen assembly must be respected by police

forces, instead of being violently crushed.

We have had our bodily autonomy violated by mask mandates, restricting our ability to breath and speak freely. All mask mandates must end.

Plans to mandate coronavirus vaccinations, enforced by Totalitarian Vaccine Passports, are being rolled out internationally.

We will not accept Movement Licenses becoming a part of our travel requirements.

Any mandates that violate informed consent must be stopped totally, through legal and activist pushback.

As one massive, united, and peaceful community, we will stand up and demand an end to the current restrictions and authoritarian control measures.

Authoritarian coronavirus restrictions have damaged our lives more than any virus has, and even if the effects of the virus were more damaging, the restrictions to our freedoms would still have been unjust and unlawful.

Our fundamental freedoms have top priority, and we cannot allow them to become constrained, for the sake of the generations that follow us.

We cannot allow our Human Rights to be re-packaged as Human Privileges, to be conditioned upon compliance with Authoritarianism.

**We are taking a stand for 5 important Freedoms:**

- **Freedom of Speech.**
- **Freedom of Movement.**
- **Freedom of Choice.**
- **Freedom of Assembly.**
- **Freedom of Health.**

We reject all acts of violence, identity politics, and discrimination of any kind within our movement.

We are non-partisan, and we invite all people who can identify with our values for a conversation.

We are all Human, and we will not be divided. We choose to live fr
