

mRNA Collateral Damage

[mRNA Collateral Damage](#)

The fallout of the COVID experiment is being witnessed by Covid jab recipients over the world as direct adverse effects. By officials, the same effects are being tallied as [collateral damage](#).

With little to no information presented at the time of deployment in early 2021, the mRNA injections have now adversely affected over 2 million people are part of a global capture. The numbers are likely to be 100 times higher.

According to the [VigiAccess.org database](#):

... based on the Harvard Study commissioned by the Center for Disease Control (CDC), in Vaccine Adverse Events Reporting System, [it only captures less than 1% of the actual ADRs](#), so adapting that figure to Vigiaccess, we can say that the total ADRs would be an astonishing 200M already.

At least one medical journal study shows some of these Adverse Drug Effects (ADRs). **[Abstract 10712: Mrna COVID Vaccines Dramatically Increase Endothelial Inflammatory Markers and ACS Risk as Measured by the PULS Cardiac Test: a Warning](#)**

Without searching the medical literature, now people can visit the global database of adverse reactions by the World Health Organization's (WHO), that tracks the numbers of Adverse Drug [Direct] Effects (ADRs). [VIGIACCESS.ORG](#)

VIGIACCESS

According to the VigiAccess website, VigiAccess was launched by the WHO in 2015 to provide public access to information of reported potential side effects of medicinal products. [Dr John Gideon Hartnett's website](#) provides category headliners for Adverse Drug Reactions from mRNA injections. Dr. Gideon writes on his website:

The WHO has [a database for adverse reactions](#) from drugs called VigiAccess™. Here I searched it for those adverse reactions from COVID-19 vaccines and got the following. It has a total of 2,183,912 adverse reactions from the various experimental COVID shots. You'll note that the reactions occur throughout the body.

This list shows that the experimental gene-altering drugs given to people have to be the worse medical experiment ever performed in world history.

Vascular disorders (118763)

The age groups most affected are 18 – 44 years (39%) and 45 – 64 years (31%). That's bad news for the 18 – 44 year olds considering their risks from acquiring a natural infection of COVID are practically zero. The result is life-long immunity.

Females represent 69% and males 30% of all those Adverse Drug Reactions (ADR). The residual 1% is labeled as unknown.

It lists ADRs by year as follows. This is strange that some ADRs are listed in years prior to 2020. How's that possible if only COVID-19 vaccine ADRs are listed?

ADR Reports per year:

▪ Year	Count
▪ 2021	2181543
▪ 2020	2254
▪ 2019	82
▪ 2018	29
▪ 2017	2
▪ 2016	1
▪ 2014	1

Continued from Dr. Gideon: *Compare this VigiAccess list to the [US VAERS database](#) which has currently 752,801 (Sept 2021) adverse events and 15,937 deaths from the COVID-19 vaccines. If I scale the VigiAccess data by the ratio of adverse reactions to deaths in VAERS I get 46,234 deaths expected in the VigiAccess data. That seems more reasonable number for the world. But from whistleblowers we have heard that these statistics are heavily under reported and the real numbers could be 100 times higher.*

Natural Immunity is Innate

Innate means *from within*. Your innate immunity is granted to you at birth by your Creator. There is no other defense system that can heal your body other than the wisdom of your own body. You are your own healer. You only need to give your body the right tools to heal yourself. And those tools all come from Nature.

The ongoing [mRNA “live exercise,”](#) that comes with future booster jabs, is showing that your the robust, innate immune system can be completely shut down with the new “[gene therapy.](#)” That also means means that because variants are artifacts of vaccines, the [Omicron variant is being spread by vaccinated people.](#)

Do No Harm

We are told that medical doctors take an oath to [First, Do No Harm](#). Yet, they are also licensed to be able to dispense drugs that can, and do, cause harm. A license is permission to do something otherwise deemed to be illegal. How do they justify the contradictions?

According to [Robert H. Shmerling, MD, Senior Faculty Editor](#), Harvard Health Publishing, the oath may or may not be taken:

While some medical schools ask their graduates to abide by the Hippocratic Oath, others use a different pledge – or none at all. And in fact, although “first, do no harm” is attributed to the ancient Greek physician Hippocrates, it isn’t a part of the Hippocratic Oath at all. It is actually from another of his works called [Of the Epidemics](#).

Here is a line from one translation of the Hippocratic Oath:

I will follow that system of regimen which, according to my ability and judgment, I consider for the benefit of my patients, and abstain from whatever is deleterious and mischievous.

Collateral Damage

The great divide forming in society stems from a man-made divide based on misinformation and censorship. The Pro vs. Anti vaccine narrative is part of the narrative. This model is designed by social engineers using a Psy Op (psychological operation) to divide families and friends alike. All Pro-Anti Psy Ops serve only to separate people and promote fear. Avoid them.

Further, it is illegal for any doctor, politician, or employer to force or coerce anyone to take or accept a medical product in order to function in society. Each person must be his own advocate, with total rulership over his or her own body since

each is responsible for his or her own health. When it comes to health, if you do not stand up for your body and your mind, you may find yourself on a database of vaccine injuries as *Collateral Damage*.

The 'covid gods' aren't acknowledging natural immunity. They are not acknowledging vaccine injuries. They are not acknowledging the fact that even if you are fully vaccinated you can still get covid. You can still transmit covid. So what's the point of a mandate? Of course that's not what we're getting from the covid gods. – [Senator Ron Johnson on the Senate floor](#), Dec. 8, 2021 Wisconsin,

Senators and politicians are re-presentatives. They claim to speak for you with their voice. But no one can re-present your body, your mind, or your voice. No one owns your body except you. If you know who you are, do your own research, and follow the money, you can make an informed decision for your health without re-presentatives. The virus hitting humanity is a virus of the mind, affecting the ability for people to access their thinking brains and speak their truths. The virus comes from fear and disconnection, not from China, and not from [bats](#).

To reverse “the virus” that causes all *plandemics*, move from fear to love. Reconnect with yourself and with those around you, with your neighbors. Reclaim the narrative that describes true health with an attitude of gratitude. The risk to any sickness is low if you know who you are, and that your body comes with the the best defense system in Nature, already built in.
