It Should Be So Easy for You, if “Viruses” Really Exist

Greetings and Best Wishes,

Drs. Tom Cowan and Mark Bailey have issued a new “virus” challenge ([here](#)).

“Please note that the requirements for submission can be found at the following timecodes in [this video](#): 2:16-11:20.”

Tom published a 5 minute follow up the next day: **You can do it, send us your videos** ([here](#)).

Please share this challenge with any/all prominent virus-pushers! Below is the email address for submissions:

*“If you or someone you know believe that viruses have been isolated and have a rebuttal or scientific study to show us, **please submit a short paper or a short video to conversationswithdrcowan@gmail.com** and we will review & address these in a future webinar. Please note that the requirements for submission can be found in [this video](#).”*

Background:

Scientific thinking applied to “virus” isolation – Tom and

Mark, February 29, 2024 ([here](#)).

And let's not forget:

[Samuel Eckert's](#) long-standing offer of a [1.5 million Euro reward](#) for any:

"virologist who presents scientific proof of the existence of a corona virus, including documented control experiments of all steps taken in the proof"

Tip: Don't attempt to collect without providing any evidence [like Professor Ulrike Kämmerer!](#)

And we still have the [Settling The Virus Debate Challenge](#) from Tom, Mark and 18 additional signatories including Professor Timothy Noakes and former Pfizer respiratory division VP, Michael Yeadon, issued in July 2022.

SETTLING THE VIRUS DEBATE

*"A small parasite consisting of nucleic acid (RNA or DNA) enclosed in a protein coat that can replicate only in a susceptible host cell."*¹

It has been more than two years since the onset of the "corona" crisis, which changed the trajectory of our world. The fundamental tenet of this crisis is that a deadly and novel "virus", SARS-CoV-2, has spread around the world and negatively impacted large segments of humanity. Central to this tenet is the accepted wisdom that viruses, defined as replicating, protein-coated pieces of genetic material, either DNA or RNA, exist as independent entities in the real world and are able to act as pathogens. That is, the so-called particle

Tip: Don't disqualify yourself as "scientist" [Kevin McCairn](#) did, by **publicly** insisting that your lab participate in a challenge where the labs must be **blinded** to each other's identities!

FOIs Summary

Freedom of Information Responses reveal that health/science institutions around the world (220 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:

Excel file listing 220 institutions:

FOI responses re other imaginary viruses (HIV, avian influenza, HPV, Influenza, Measles, etc., etc., etc.):

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

FOIs re secretive and unscientifically “mock infected” cells (aka invalid controls) and fabricated “virus genomes”:

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

3000+ pages of “virus” FOIs (updated as of December 31, 2022) in 8 compilation pdfs, and my **notarized declaration** re the anti-scientific nature of virology:

Failed freedom of Information responses re contagion:

<https://www.fluoridefreepeel.ca/freedom-of-information-responses-re-contagion/>

Do health and science institutions have **studies proving that bacteria CAUSE disease?**

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because “they” (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don’t exist and virology isn’t a science.

For truth, freedom and sanity,

Christine
