It Should Be So Easy for You, if “Viruses” Really Exist

Greetings and Best Wishes,

Drs. Tom Cowan and Mark Bailey have issued a new “virus” challenge ([here](#)).

“Please note that the requirements for submission can be found at the following timecodes in [this video](#): 2:16-11:20.”

Tom published a 5 minute follow up the next day: **You can do it, send us your videos** ([here](#)).

Please share this challenge with any/all prominent virus-pushers! Below is the email address for submissions:

*“If you or someone you know believe that viruses have been isolated and have a rebuttal or scientific study to show us, **please submit a short paper or a short video to conversationswithdrcowan@gmail.com** and we will review & address these in a future webinar. Please note that the requirements for submission can be found in [this video](#).”*

Background:

Scientific thinking applied to “virus” isolation – Tom and

Mark, February 29, 2024 ([here](#)).

And let's not forget:

[Samuel Eckert's](#) long-standing offer of a [1.5 million Euro reward](#) for any:

"virologist who presents scientific proof of the existence of a corona virus, including documented control experiments of all steps taken in the proof"

Tip: Don't attempt to collect without providing any evidence [like Professor Ulrike Kämmerer!](#)

And we still have the [Settling The Virus Debate Challenge](#) from Tom, Mark and 18 additional signatories including Professor Timothy Noakes and former Pfizer respiratory division VP, Michael Yeadon, issued in July 2022.

SETTLING THE VIRUS DEBATE

"A small parasite consisting of nucleic acid (RNA or DNA) enclosed in a protein coat that can replicate only in a susceptible host cell."

It has been more than two years since the onset of the "corona" crisis, which changed the trajectory of our world. The fundamental tenet of this crisis is that a deadly and novel "virus", SARS-CoV-2, has spread around the world and negatively impacted large segments of humanity. Central to this tenet is the accepted wisdom that viruses, defined as replicating, protein-coated pieces of genetic material, either DNA or RNA, exist as independent entities in the real world and are able to act as pathogens. That is, the so-called particle

Tip: Don't disqualify yourself as "scientist" [Kevin McCairn](#) did, by **publicly** insisting that your lab participate in a challenge where the labs must be **blinded** to each other's identities!

FOIs Summary

Freedom of Information Responses reveal that health/science institutions around the world (220 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:

Excel file listing 220 institutions:

FOI responses re other imaginary viruses (HIV, avian influenza, HPV, Influenza, Measles, etc., etc., etc.):

FOIs re secretive and unscientifically “mock infected” cells (aka invalid controls) and fabricated “virus genomes”:

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

3000+ pages of “virus” FOIs (updated as of December 31, 2022) in 8 compilation pdfs, and my notarized declaration re the anti-scientific nature of virology:

Failed freedom of Information responses re contagion:

<https://www.fluoridefreepeel.ca/freedom-of-information-responses-re-contagion/>

Do health and science institutions have studies proving that bacteria CAUSE disease?

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because “they” (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don’t exist and virology isn’t a science.

For truth, freedom and sanity,

Christine
