

New International Coalition: Global Radiation Emergency

[New International Coalition: Global Radiation Emergency](#)

by [Arthur Firstenberg](#), [Cellular Phone Task Force](#)

February 28, 2024

Global Radiation Emergency is a just-formed coalition of individuals, organizations and scientists on six continents whose mission is to save Planet Earth. Birds are disappearing from our skies, bees from our flowers, insects from our forests, worms from our soils, animals from their dens, and health from our bodies.

Our coalition will be contacting leaders in science and medicine, directors of environmental organizations, law institutes, government officials, astronomers, universities, religious leaders, and groups representing parents, children and schools. Our website is radiationemergency.org.

The *Electrosmog Policy Brief*, so far in [English](#), [français](#), [italiano](#), [svenska](#) and [한국어](#), will be our roadmap and our guideposts. The *Radio Wave Packet*, so far in [English](#), [français](#), [norsk](#) and [Nederlands](#), will be a basic tool with which to penetrate the wall of denial, to place wireless technology alongside climate change on the world's agenda of greatest assaults on life and most immediate threats to survival.

If you or your organization wants to join our coalition, please send a message to Global Radiation Emergency on the [contact page](#) of the website.

Arthur Firstenberg
