July 28, 2021

Global Reset Underway

If you listen to *The News*, you have heard the official warnings:

[Don't Go Here While the Delta Variant Is Surging, Experts Warn.](#)

[COVID Delta Variant Takeover, offers a warning...](#)

[WHO Issues a Warning of High Probability of New and More Dangerous Variants...](#)

[Delta Variants Rise Plunges Europe into Uncertainty and Offers a Warning to the U.S.](#)

[CDC Issues Warning to the Unvaccinated](#)

[Pandemic Spiraling Out of Control Because of Unvaccinated](#)

Lions and Tigers and Bears, oh my! – Dorothy, The Wizard of Oz

The Blame Game is underway in a test of global proportions.

Humans are participants in a Global Reset, with global control by one official voice, where all sovereign nations must work together in unison. Only if all heads-of-state play from the same page in the same Playbook can they achieve their end goal of uniformity. They do so by first dividing people by their

identity, and then eliminating it altogether by making humans one amorphous blob.

First, governments must create a “compelling interest:”

Compelling interest – Legal Definition. n. *In constitutional law, a method for determining the constitutionality of a statute that restricts the practice of a fundamental right or distinguishes between people due to a suspect classification.*

Blaming the Unvaccinated

The classification and separation of a species is nothing new. Subclassifications are essential for an elite power structure to dissect and maintain control. In humans it happens because people allow it to happen.

Suspect classifications in humans include: [racial status](#) (BLM), gender status (male vs. female), non-gender status, religious status, educational status (degrees), social status (Caste system in India), marital status, political status, disease status (lepers, patients), vaccinated status, and now, health status. All dictated by a sole authority, such as the United Nations U.N., whose sole purpose is to unite nations.

Using new logic, a disease-free, asymptomatic person is a threat to everyone. Healthy people are weapons.

New Logic: A vaccinated person might get sick from a virus they got vaccinated against, because someone else is not vaccinated.

As world governments build a case for a global reset using an unapproved global vaccine, and a [bogus PCR test](#), they utilize the media, by design, as a means to an end.

This dynamic process comes directly from the Playbook of the Hegelian Dialectic: Problem, Reaction, Solution. First, create the problem – a health threat to divide people. Second, foment

a reaction – fear and frenzy through media. And finally, roll out the solution – uniformity via a global vaccine program with the elimination of rights and freedoms.

New Logic: Unvaccinated equals unclean.

Warnings Not Reported

Not reported in *The News* are the real threats to human health, once they are connected to each other.

1) The CDC Quietly Withdraws PCR Test to Identify COVID.

The US has used the PCR test to report more than 34.4-million cases of the COVID-19 since the pandemic began and more than 610,000 deaths. Covid cases based on this test soared nationwide while, at the same time, hospitalizations and deaths from the Flu dropped to near zero... [The hundreds of diagnostic tests that supposedly detect COVID-19 are also NOT approved by the FDA.](#)

As the CDC admits to using a bogus test, they [recommend again that Americans go back to wearing masks](#) “due to a recent surge in case numbers.” By what measure?

2) Allergies to Ingredients in Injections

An allergist with the Mayo Clinic warns, if you are [allergic to Miralax, you should not get the jab](#). Miralax contains polyethylene glycol (PEG), [a toxic substance if injected through the skin](#). PEG functions as a “[penetration enhancer,](#)” increasing the permeability of the skin to allow greater absorption of the product – including harmful ingredients.

PEG is an excipient found in the Pfizer and Moderna shots, known to cause anaphylaxis in some cases. Both the U.S. [CDC](#) and the UK Medicines and Healthcare products Regulatory Agency ([MHRA](#)) advise that:

‘any person with [a history of anaphylaxis to a vaccine,](#)

[medicine or food should not receive](#) either the Moderna or the Pfizer/BioNTech COVID-19 vaccine’.

A [2016 study published in Analytical Chemistry](#) found that about 7% of people who have been exposed to PEG from various products have a level of antibodies to the compound that is high enough to cause an anaphylactic reaction.

[Polysorbate 80, also known to cause allergies, and other adverse effects](#) should never be injected. Though it is not well tested, it is found in the [following approved vaccines](#): DTaP (Infanrix);DTaP-IPV (Kinrix);DTap-HepB-IPV (Pediatrix);DTaP-IPV-Hib (Pentacel);Influenza (Agridu);Influenza (Fluarix);Meningococcal (MenB-Trumenba);Pneumococcal (PCV13-Prevnar13);Rotavirus (RotaTeq);Tdap (Boostrix).

[Nanoparticles](#) are the game changer as suspicions grow that they, too, cause allergies, blood clots, heart problems, and unknown effects.

3) The Variant and the Vaccine

Variants are artifacts of vaccines, also called “breakthrough infections.”This happens [when the vaccine fails.](#)” However, COVID injections are not approved ‘vaccines.’ The more vaccinated people, the more variants produced. Variants are reported to be more common [in people over 50 years,](#) but that remains to be seen since the CDC may be [undercounting breakthrough infections.](#) For more, see [Covid vaccine breakthrough infections.](#)

In an interview with Pierre Barnérias of [Hold-Up Media](#), Dr. Montagnier said he believed that the mass vaccination programs for COVID may actually be causing SARS-CoV-2 mutations like the Delta variant and, thus, prolonging the pandemic.

You may wish to stay ahead of the variant curve by knowing which variants will be announced at what time. A short [list of](#)

[“variants of concern” are published](#) by state health departments. But the full list of variants thru 2023 is already known, though not televised in *The News*.

Here is one list showing their Greek names and birthdates/release dates between June 2021 (Delta) and February 2023 (Omega).

Variant	Name	Birthdate
A	Delta	Jun 2021
E	Epsilon	Jul 2021
Z	Zeta	Aug 2021
H	Eta	Sept 2021
θ	Theta	Oct 2021
I	Iota	Nov 2021
K	Kappa	Dec 2021
λ	Lambda	Jan 2022
M	Mu	Feb 2022
N	Nu	Mar 2022
Ξ	Ksi	April 2022
Ο	Omicron	May 2022
Π	Pi	June 2022
P	Rho	July 2022
Σ	Sigma	Aug 2022
T	Tao	Sept 2022
Υ	Upsilon	Oct 2022
Φ	Phi	Nov 2022
X	Chi	Dec 2022
Ψ	Psi	Jan 2023
Ω	Omega	Feb 2023

4) Delta Tower

Is it a coincidence that Delta towers are announced to support 3G, 4G, and 5G frequency deployment during the reign of the Delta variant? New [Delta tower antenna poles](#) allow “multiple Operators” for roof top “monitoring solutions.” The new 5G towers and their frequencies are microwaves known to affect human health.

Nanotechnology through injections suggests a whole new level of unknowns when it comes to microwave frequencies. One study titled, “[5G Technology and induction of coronavirus in skin cells](#)” suggests that 5G frequencies are absorbed through the skin to produce the symptoms of COVID.

Further, [Patent #: US5800481](#) published on Sep 1, 1998 and filed on Dec 28, 1995, confirms the skin – microwave frequency connection:

In man, autonomic and cortical resonances of the nervous system can be excited by inducing subliminal heat pulses in the skin by means of a resistive heat patch, laser, heat lamp, or microwave radiation, or through a slow air jet that carries a small periodic fluctuation in temperature. Deeply subliminal skin temperature oscillations of frequency near 1/2 Hz induced in a subject by any of these means cause sleepiness, drowsiness, relaxation, a tonic smile, ptosis of the eyelids, a tense feeling, sudden loose stool, or sexual excitement, depending on the precise pulse frequency used. For certain higher frequencies, the induced subliminal skin temperature oscillations cause fractured thought and a slowing of certain cortical processes. The method and apparatus can be used by the general public as an aid to relaxation, sleep, or arousal, and clinically for the control and perhaps treatment of tremors, seizures, and emotional disorders. There is further application in the form of nonlethal weapons, involving a pulsed infrared laser or a pulsed microwave beam, tuned to a sensory resonance pulse frequency

5) The [Injectable “Operating System”](#)

Moderna is careful to call its mRNA injection an “operating system.”

Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer... In our case, the “program” or “app” is our mRNA drug – the unique mRNA sequence that codes for a protein.

At the same time, [Moderna admits that healthy human immune responses can destroy the mRNA sequences](#) before they get into the person’s cells. [According to Bloomberg](#), Moderna wants to transform the human body into a vaccine making machine, though the company began making chemotherapy agents for cancer, not as a vaccine manufacturer for SARS-COV2. Are these *devices* injecting people with prophylactic chemotherapy for cancer that has not been diagnosed by a medical professional?

Even if a healthy immune system can disable injected nanotechnology early on, nanobots can jeopardize normal enzyme reactions, molecular bonds, and hormone balance. In other words, the body can turn on its own cells in an autoimmune (self attack) response as it does with approved vaccines. In medical circles, this is called called A.S.I.A. or [Autoimmune Inflammatory Syndrome Induced by Adjuvants](#).

6) Don’t Tell Policy

Is asking about vaccine status a [violation of the HIPPA privacy policy](#)? According to one [AP news source, that does check the facts](#):

If someone does come to your door to encourage you to get the COVID-19 vaccine, you have no obligation to tell them whether you have been vaccinated, said Kayte Spector-Bagdady, lawyer and associate director for the Center for Bioethics and Social

Science in Medicine at the University of Michigan Medical School.

HIPAA does not apply to public health outreach volunteers, and it doesn't apply to information you offer to tell," Spector-Bagdady said in an email to the AP. "If you are uncomfortable, just don't open the door – or do and just get some information without giving any in return!"

7) Question The News

To question *The News* is to make journalists accountable for their information or misinformation. Some rhetorical questions to pose:

Since when have all sovereign nations agreed on anything as a unified group?

In this 'live exercise,' will [each new variant](#) require a new experimental injection?

Have recipients volunteered for an experimental shot under false pretenses? See premise of the TV mini Series [Ascension](#).

Are people who talk to their doctors [more likely to get the vaccine](#)?

Is it ethical for states to incentivize experimental medical products using cash prizes and lotteries?

If the shot is so beneficial to health why would people need to be [bribed with money and free gifts](#)?

If the [CDC quietly withdrew the unapproved PCR test](#) for use to identify Covid, then why return to mask mandates due to "case surges?" What cases?

Will life insurance companies insure their members if they accept any unapproved medical procedures, tests, or vaccines? [Are you covered in the COVID experiment](#)?

Is the mRNA “operating system” designed to program humans and turn their cells into efficient drug delivery systems or hack biological functions to create a transhuman, subhuman species? Both? What happens to the human soul and spirit?

Is it news, propaganda, fraud, or a political reality show? Are they all one and the same?

Answer: New Logic

Health Freedom and The Right to Refuse

Common Sense: In a free society each individual is responsible for determining the costs and benefits of any medical treatment – the decision to get vaccinated is no different. – [Commentary by Dr. Neil Shah, MD](#)

In a free society common sense trumps *New Logic* every time. How do the rights of a healthy person infringe upon the rights of others simply by not being vaccinated?

They don't.

We, the people, must demand that the government leave us alone. A global governmental entity is only able to succeed in its agenda to remove inherent rights if the people consent to immoral dictates.

Government mandates of coerced medical treatments only hold power if people allow it.

This is a test. This is only a test.

Diane Miller, JD, of the [Right to Refuse team](#) reminds people that they have the Right To Refuse medical procedures [based on informed consent](#):

The protection of the legal concepts of informed consent, where patients have the right to significant information about a medical intervention that would impact whether to accept or decline a product or procedure, is imperative to supporting a

person's fundamental right to make decisions about their own bodies. Incentivizing a person to make a decision one way or the other, outside of information discussed in the doctor/patient relationship, would be unethical. When government and corporations interfere with the doctor/patient relationship and health and medical decision-making by giving rewards to patients for compliance with government goals, then a dangerous abuse of power is initiated. Gimmicks and coercive policies not only undermine informed consent, but also reduce consumer confidence in public health policy. In our country, all individuals have the fundamental right to make health decisions for themselves and their families without coercion or discrimination.

In a truly free society, the freedom to choose is non-negotiable and not open to interpretation by science or by any other means. When we allow government to remove the principle of choice, it binds freedom itself to a contract and choice becomes obsolete. Natural rights are a birthright and can neither be given away nor denied by any government or court.

The rights of the individual are not derived from governmental agencies, either municipal, state or federal, or even from the Constitution. They exist inherently in every man, by endowment of the Creator, and are merely reaffirmed in the Constitution, and restricted only to the extent that they have been voluntarily surrendered by the citizenship to the agencies of government. The people's rights are not derived from the government, but the government's authority comes from the people. The Constitution but states again these rights already existing, and when legislative encroachment by the nation, state, or municipality invade these original and permanent rights, it is the duty of the courts to so declare, and to afford the necessary relief. The fewer restrictions that surround the individual liberties of the citizen, except those for the preservation of the public health, safety, and morals, the more contented the people and the more successful the

democracy. (*City of Dallas v. Mitchell*, 245 S.w. 944, 945-46, Tex.Civ.App. – Dallas (1922)).

The choice to keep your identity and power is yours and no one else's, even in attempts to reset the world stage. The evolution or devolution of humanity is dependent on whether each individual chooses to be healthy or to risk disease, whether each chooses to be weaponized by a government entity, or not.
