

No Federal Solution

No Federal Solution

There is no federal solution.

For anyone who thinks the federal government is created to solve your problems, be they financial or health-related, marital or parental, think again! People have grown complacent when federal dictates, mandates, or Acts are acceptable as the *Rule of Law* to be followed without question where you live.

In his article, [There is No Federal Solution](#), author Lawrence Vance sets the *broken* record straight on the differences in purpose between state government and federal government:

Biden then surprisingly said that “there is no federal solution” to the COVID-19 pandemic and declared that it “gets solved at the state level,” before he boarded a helicopter and departed for his home state of Delaware.

The federal government wants you to believe that an entity, such as itself, can send a check in the mail and draft the [Save America Act](#) to create peace, prosperity, and health for all. For those who fell for the last Act, there is another Act coming, unless you can tell an Act from [CoroN0virus Reality](#). First know that the federal government is set up only to regulate commerce across state lines. Alternatively, it is State governments that regulate what happens to people within their state boundaries.

Federal Overreach

Through federal Acts, the federal government steers people into a confused herd called “The Public,” and uses terms such as “[Public Health](#),” to control and regulate people as commodities.

In reality, [there is no such thing as “Public Health.”](#) Public Health does not exist outside of individual health. You cannot wear a life jacket to keep others afloat. So to consent to “Public Health mandates” is to give up bodily autonomy in exchange for “Public Rights” (i.e., Children’s rights, Gay rights, Parent rights, Women’s rights) granted by the State. State Rights can be modified, suspended, and revoked. Therefore, they are not Rights at all. Rights come from the Creator. They are inborn. See how the state of [California revoked all vaccine-related exemptions](#).

Beware of ALL Federal Acts, old and new, naughty and [NICE](#). If there is a federal Act, there are also multiple loopholes called exemptions that hold “the public” to the grindstone, while allowing whole industries to ignore the Act to do as they please. By the looks of it, federal Acts appear to do the opposite of what they claim to do. In other words, “Its all an Act, folks.”

From the [first Act, passed in 1784](#), to the latest draft government Act, ALL Acts appear to be an extension of [The CIRCUS Act](#). Yet, more than 30,000 statutes have been enacted since 1789. From the people’s perspective, success rates are dismal thanks to exceptions to every Act. A few examples include:

The [CLEAN AIR Act](#) of 1970 with exemptions, and [The CLEAR SKIES Act](#) of 2019 – serves to create dirty skies with [exemptions for oil refineries and power plants](#) and the most [toxic bunker fuel operations](#).

The [CLEAN WATER Act](#) of 1972 and its [exemptions](#) that serve to

pollute the waters.

The [US PATRIOT Act](#) of 2001 and US Patriot and Reauthorization Act of 2005 “to unite and strengthen America,” with [exemptions to banking agencies](#) which serve to divide and weaken America.

The [QUARANTINE Acts OF 1710](#), and [1720](#), [The QUARANTINE Act of 1951](#) – originally applied to commercial vessels for the separation of infected people, which became the Public Health Act of 1896 in Ireland, The Public Health Act of 1936 in Britain, [The Public Health Service Act of 1944](#) in America, to [The CANADA QUARANTINE ACT of 2005](#) – to quarantine all people, healthy and sick.

The [PREP Act of 2005](#), allows government to bypass Rights and Freedom. The [DHHS Amended Version](#) authorizes an increased workforce to administer COVID (experimental) vaccines. And [The PREP Act 2022](#) – limits liability for COVID countermeasures.

Has the federal government, through these Acts, and hundreds more, cleaned up the air, if [air pollution is on the rise](#)? Have the feds [purified the water](#), [curtailed terrorism](#), or [flattened the curve](#) of diseases? Anyone can scan the headlines on any day to find the answer.

In [his article](#), [Lawrence Vance](#) shares founding father, James Madison,’s essay on the functions of state and federal governments: Federalist Essay No. 45 –

The powers delegated by the proposed Constitution to the Federal Government, are few and defined. Those which are to remain in the State Governments are numerous and indefinite. The former will be exercised principally on external objects, as war, peace, negotiation, and foreign commerce; with which last the power of taxation will for the most part be connected. The powers reserved to the several States will

extend to all the objects, which, in the ordinary course of affairs, concern the lives, liberties and properties of the people; and the internal order, improvement, and prosperity of the State.

The operations of the federal government will be most extensive and important in times of war and danger; those of the State governments, in times of peace and security. As the former periods will probably bear a small proportion to the latter, the State governments will here enjoy another advantage over the federal government. The more adequate, indeed, the federal powers may be rendered to the national defense, the less frequent will be those scenes of danger which might favor their ascendancy over the governments of the particular States. If the new Constitution be examined with accuracy and candor, it will be found that the change which it proposes consists much less in the addition of NEW POWERS to the Union, than in the invigoration of its ORIGINAL POWERS.

The Federalist No. 46;

The federal and State governments are in fact but different agents and trustees of the people, constituted with different powers, and designed for different purposes.

It has been already proved that the members of the federal will be more dependent on the members of the State governments, than the latter will be on the former.

Americans have neglected their duties to ensure that federal powers remain in check. As a result, federal government has assumed and subsumed powers it was never delegated. The United States was established as a federal system of government where the states, through the Constitution, granted a limited number of powers to a central government – not the other way around.

A Real Solution

If reading any federal Act, use it as an educational tool. Does the Act do the opposite of its intended purpose? Are these Acts distractions for other crimes, international [crimes against humanity](#)? Do you need to be saved by your government?

Do you need to be saved *from* your government?

As a first step to forming a real solution, it is important to understand the federal language of legalese, which is written, by design, to confuse. By taking the Public out of "Public Health," we can begin to wake up to the truth about the governmental system, and the truth of who we are as humans. We can then begin the process to know how to see through the federal Acts to reclaim responsibility on an individual level in our own states where we live.
