VANCOUVER, BC – In this interview with Alfred Lambremont Webre, Ole Dammegard exposes UK-based Crisis-solutions.com as an apparent international corporate psyop media planning hub for false flags, providing up to 1500 specialized personnel in the fields of security, media, crisis-acting, makeup, props, special effects, political liaison, media liaison, special effects, etc. for an ongoing series of International False Flags that operate as corporate profit centers through corporate signage, and that are designed to continue multiple socio-political objectives of Synthetic Terror, such as
